Dean :
Prof. Ashutosh Dixit

ChairPerson:
Dr. Rajiv Sindwani

Student Co-ordinators:
Janvi
Keshav

The theme “Education for Sustainable Development Goals (SDGs)” highlighted the role of education in building a sustainable, inclusive, and equitable future. Education empowers individuals with the knowledge, values, and skills necessary to address global challenges such as poverty, inequality, climate change, and environmental degradation. The competition aimed to: Develop effective public speaking skills among students, enhance confidence and stage presence, encourage critical thinking and expression of ideas, promote awareness of current social, economic, and national issues, and foster healthy competition and intellectual engagement.

The event commenced with a welcome address by the faculty coordinator, who emphasized the importance of effective communication and persuasive speaking in personal and professional life. A total of 32 students participated with great enthusiasm. The participants presented their ideas confidently, focusing on quality education, environmental sustainability, gender equality, responsible consumption, and inclusive growth. The speeches reflected deep understanding and awareness of sustainability issues. The contestants demonstrated remarkable confidence, clarity of thought, and oratory skills.

Participants were evaluated on content relevance, confidence, clarity, language, and presentation skills. The judging panel appreciated the thoughtful delivery and strong

communication skills of the students. The Declamation Competition was a great success and provided an enriching learning experience for all participants. The event encouraged students to articulate their views confidently and thoughtfully while fostering a spirit of healthy competition. Such activities play a vital role in the holistic development of students and contribute significantly to their personal and professional growth. The competition concluded with the announcement of winners: First Position: Saloni; Second position: Simran; and Third position: Vansh and Meenakshi

The event successfully promoted awareness about sustainable development and encouraged students to become responsible global citizens. The Department of Business Studies continues to organize such activities for holistic student development. The event concluded with a vote of thanks delivered by the student coordinator, expressing gratitude to the faculty members, presenters, participants, and organizing committee for their support and contribution to the successful conduct of the event.
