FOREWORD

It gives me immense pleasure in presenting the Annual Report of the J.C. Bose University of Science and Technology, YMCA, Faridabad (formerly known as YMCA University of Science and Technology) for the session 2021-2022. This Report has been compiled in pursuance of Section 25 of the YMCA University of Science and Technology, Faridabad Act, 2009.

The report has been compiled under the direction of the Executive Council for submission to the Visitors, Chancellor, and State Government through the Executive Council and University Court. This Annual Report is a record of the University's endeavours and achievements over the course of a year. It is a comprehensive overview of an entire year's academic, administrative, research, placement, and financial inputs drawn from the University's departments and administrative offices. This Annual Report reflects the involvement of the faculty in research publications in reputed national and international journals and also reflects the numerous academic and co-curricular activities organized by the University.

In consonance with the vision of the country's top leadership, as reflected in the National Education Policy (NEP) 2020, the University focuses on producing trained human resource which has extensive knowledge, modern skills, diverse abilities, leadership qualities, entrepreneurial abilities, and strong cultural and ethical values as guiding spirit. Importantly, the programs offered have been designed very carefully keeping in view the functionality of output to bridge the gap between higher education and employment.

The University is offering a wide spectrum of programmes and started six new courses from the academic session 2021-22 including two courses in Regional Language (Hindi) i.e. B.Tech in Mechanical Engineering and B.Tech in Computer Engineering. Also, B.Tech in Robotics and Artificial Intelligence, Environmental Engineering, B.Sc-Life Sciences, B.Com (Hons.), and Bachelor of Social Work have been started from the academic session 2021-22. The University is committed to provide quality and creative research in Engineering, Sciences, and Management. The University is indebted to the State Government of Haryana for releasing grants for all-round development.

I would like to record my appreciation and acknowledgment towards the cooperation of all the teaching and non-teaching staff members involved in the compilation of this Annual Report.

Prof. S. K. Tomar
Vice-Chancellor

RESEARCH ACTIVITIES

RESEARCH INITIATIVES AND COURSES

1. INTRODUCTION

Research and Development (R&D) section oversees the research related activities of the University to promote research, innovation & entrepreneurship as well as ensure that the outcomes of the same benefit the society. Major objectives of R&D section can be summarised as

- To explore technological development opportunities in common application areas for the welfare of the people of our country.
- To encourage and incentivize faculty members of the university for research publications in SCI and Scopus Index or other equivalent peer-reviewed / reputed/ prestigious indexed journals.
- To organize research promotion events like summits, conferences, seminars, workshops, expert lectures and panel discussion through talks with eminent personalities from reputed institutions and industries etc.
- To motivate faculty members, research scholars, staff and students to apply for patent(s) and also encourage to present research papers in National and International conferences/workshops.
- To provide appropriate facilities and infrastructure for the advancement of research.
- To take Initiatives for signing MoU's with reputed national/international institutions and industries for collaborative consultancy and research projects, etc.
- To identify the technical problems faced by the industry and find effective solutions for the same through research projects and consultancy work, etc.

3. PROGRAM-WISE TOTAL Ph.D ENROLMENT AND ADMISSIONS DURING THE YEAR 2021-22

Sr. No.	Program	No. of admissions
1.	Ph.D. (Chemistry)	5
2.	Ph.D. (Computer Engineering)	11
3.	Ph.D. (Civil Engineering)	1
4.	Ph.D. (Electrical Engineering)	1
5.	Ph.D. (Electronics Engg.)	2
6.	Ph.D. (Environmental Science)	1
7.	Ph.D. (Management)	5

8.	Ph.D. (Mechanical)	8
9.	Ph.D. (Physics)	4
10.	Ph.D. (Interdisciplinary)	1

4. DETAILS OF RESEARCH AWARDS AND DISTRIBUTION OF SEED MONEY DURING THE YEAR 2020-21 SANCTION TO THE FACULTY MEMBERS ON DTD 14/07/2021 (F.Y 2021-22)

Sr. No.	Seed Money Awarded to	Department	Title of project	Amount of Seed Money
1.	Dr. Anurag Prakash	Chemistry	Atomistic stimulations of biodegradable betaine-based ionic liquids and their polymer composite for energy and environmental applications	Rs.2 lakh
2.	Dr. Ravi Kumar	Chemistry	Diaryliodonium salts as efficient Lewis Acid organocatalysts	Rs.2 lakh
3.	Dr. Vinod Kumar	Chemistry	Excited State Proton Transfer Within Ionic Liquid Based Media	Rs.2 lakh
4.	Dr. Somvir Bajar	EVS	Leachate Characterization and Assessment of its Impact on Groundwater Quality in the Surroundings of Bandwari Landfill site	Rs.2 lakh
5.	Dr. Navish Kataria	EVS	Preparation of Green Nanomaterials for the removal of emerging contaminants (Phenol and Bisphenol-A) from water	Rs.2 lakh
6.	Dr. Vishal Puri	Civil Engg.	Numerical Analysis of Bamboo Reinforced Concrete Prefabricated Wall	Rs.2 lakh
7.	Dr. Arun Kumar	Physics	Tuning of Piezoelectric PVDF/MWCNT/TIO ₂ Hybrid Nanocomposite Thin Films For enhance Gas Sensing	Rs.2 lakh
8.	Dr. Parmod Kumar	Physics	Metal Oxide Based Nanocomposites for the Removal of Harmful Organic Dyes from Waste Water via Photocatalysis Approach	Rs.2 lakh
9.	Dr. Yogita	Physics	Study of Local Surface Potential and Polarization Properties at the Matrix/Particle Interface in Ferroelectric Nanocomposites	Rs.2 lakh

5. EVENTS / ACTIVITIES DURING THE YEAR 2021-22

Sr. No.	Name of Activity	Date	Number of Participant	
			Male	Female
1.	Workshop on Research Methodology (Research for Resurgence Anandshala)	23.07.2021	42	48
2.	Workshop on Awareness and Training on Intellectual Property	29.04.2022	22	21
3.	Workshop on Latex	13.05.2022	8	10

6. ACHIEVEMENTS

1. Seed Money of worth Rs. 18 lakhs awarded to 9 faculty members of the University
2. Rs.11,23,076/- awarded to research scholars & faculty members for Research Publication Cash Award

J. C. Bose University of Science and Technology, YMCA, Faridabad
A Haryana State Govt. University
(Established by Haryana State Legislative Act, No. 21 of 2009 & Recognized by UGC Act 1956 u/s 22 to Confer Degrees)
Accredited 'A' Grade by NAAC

In Collaboration with **Research For Resurgence Foundation (RFRF)**
organizes **Workshop on Research Methodology**
entitled **Research for Resurgence Anandshala**
23rd - 24th July 2021

PATRON
Prof. Dinesh Kumar
Vice Chancellor
J.C. Bose UST
YMCA, Faridabad

CO-PATRON
Dr. Sunil Kumar Garg
Registrar

Coordinator
Dr. Shweta Jain, Coordinator (R&D)
Dr. Sakshi Kalia, Asst. Prof (EE)

Keynote Speaker
Prof. (Dr.) Rajesh Biniwale
Director General
Research for Resurgence Foundation
- Sr. Principal Scientist & Head
CTM Division, NIEERI, Nagpur

Expert Speakers
Prof. Shreepad Kamalkar
Professor
Department of Electrical Engineering
IIT, Madras
Prof. Ashish Pandey
Associate Professor
S.J. Mehta School of Management
IIT, Bombay

Deliberations on
Research Mindset: Questions for Interesting, Creative and Useful Research; Difference between course based Education and Research; Thinking, Experimental and Management Skills for Research; Intra and Interpersonal Aspects of Research and Institutional Aspects of Research

INTERNATIONAL AFFAIRS CELL

1. INTRODUCTION

In the age of globalization, J. C. Bose University of Science & Technology, YMCA, Faridabad has set out International Affairs Cell in an effort to make the university a global study destination in the country and promote intensive academic and research collaboration with foreign HEIs. The cell was established in September 2019 to assist students in acquiring information about the admission process, various programs, fee structure, eligibility, visa requirements, accommodations, and their overall welfare through a unique single-window system. The international affairs cell coordinates its activities in close contact with university leadership, various faculties, and teaching departments.

As per National Education Policy 2020, the various objectives of the cell are as follows:

- I. To coordinate all matters related to supporting foreign students
- II. To disseminate information related to the admission process among prospective foreign students.
- III. To engage the promotional activities and brand-building campaign board.
- IV. Single point of contact for carrying out all collaboration activities with foreign institutions.
- V. Act as a liaison body between the foreign students and sponsoring agency.
- VI. To address the grievances of foreign students in all matters.
- VII. Single point of contact for registration with FRRO/e-FRRO.
- VIII. To facilitate networking with fellow students.
- IX. To extend all possible help to foreign students to adapt to a new cultural environment and make their stay in India comfortable and enriching.
- X. To facilitate international academic and research collaboration.
- XI. To conduct knowledge enrichment sessions for all students, whether domestic or foreign students through international experts.
- XII. To conduct knowledge transfer programs through means of international FDP/STTP.

16. Apart from all the facilities mentioned above pest control and fumigation/spray for protection from rats and mosquitoes is done on regular basis.
17. Expert lectures are organized to create awareness amongst the girls to maintain hygiene and cleanliness.
18. Self Defense, Anti Ragging, Anti drugs, Career counseling and Yoga classes are also organized time to time.
19. The hostel administration organizes a hostel fresher night party every year to welcome its new students which let the students mingle with each other to make the hostel atmosphere amicable and friendly.
20. Strict rules have been formulated to maintain discipline and hygiene in the hostel premises though prohibition of ragging is the major concern of the authorities. The students are expected to strictly adhere to the hostel entry and exit timings.
21. Feedback registers, Complaint registers and suggestion box are maintained to address the grievances of the students.
22. Maintain the Mess food Inspection report, Student feedback report, and cleanliness report.

UNIVERSITY CELL

The University conducts various activities under the different Cells. The details of different Cell functional in the University are as under:

INTERNAL QUALITY ASSURANCE CELL (IQAC)

1. INTRODUCTION

J. C. Bose University of Science and Technology, YMCA, Faridabad, is poised to grow with built-in quality systems in all processes of the University. Maintaining the momentum of quality consciousness is crucial in Universities. Internal Quality Assurance Cell, in fact, was established on 22.09.2015 as per 12th Plan Guidelines of UGC with a grant of Rs. 4, 2,000/- as a mechanism to build and ensure a quality culture at the institutional level.

The internal quality assurance mechanism of any institution/university called as “**Internal Quality Assurance Cell (IQAC)**” is meant for planning, guiding and monitoring Quality Assurance (QA) and Quality Enhancement (QE) activities of the same. National Assessment and Accreditation Council (NAAC) – an autonomous body established by the University Grants Commission (UGC) of India advocates that the IQAC has the potential to become a vehicle for ushering in quality by working out intervention strategies to remove deficiencies and enhance quality.

OBJECTIVES OF IQAC

1. To develop a quality system for conscious, consistent and catalytic programmed action to improve the academic and administrative performance of the University.
2. To promote measures for institutional functioning towards quality enhancement through internalization of quality culture and institutionalization of best practices.

FUNCTIONS OF IQAC

The prime aim of the University is to see that every student has equal access to competent and qualitative teaching which leads to vibrant academic, social and personal growth on the campus and off the campus. The functions of the IQAC at the University include:

- a) Development and application of quality benchmarks/parameters for the various academic and administrative activities of the University.
- b) Facilitating the creation of a learner-centric environment conducive for quality education and faculty maturation to adopt the required knowledge and technology for participatory teaching and learning process;
- c) Initiate documentation of the various programmes/activities of the University, leading to quality improvement.
- d) Inculcate a system of transparency and mutual trust among stakeholders.
- e) Sensitization and dissemination of information on the various quality parameters of higher education.
- f) Preparation of the Annual Quality Assurance Report (AQAR)

CONSTITUTION OF IQAC DURING ACADEMIC YEAR 2021-22

Current constitution of IQAC was notified on 13/07/2020 and is valid for two years.

UNIVERSITY COMPUTER CENTRE AND DIGITAL AFFAIRS

1. INTRODUCTION

The revolutionary advancement in digital technologies has necessitated the dissemination of these technologies to society and also to adopt it for modern education. The University has set up a University Computer Centre and Digital Affairs Cell (UCCDA). It was established in the year 2019 by combining two entities: IT Cell (Incepted in 2017 to ascertain ICT infrastructure and networking facility in the University) and Digital Cell (Incepted in 2015 to ensure implementation of digital initiatives and digital learning environment in the University). It is taken as centralised resource facilitator for computerization with an aim to cater to the needs of the entire University (students, research scholars, teachers and other staff of the University). Its associated objective is also to automate administrative and secretarial wings of the University. Cell is working to progress the university towards digital universe, taking care of ICT infrastructure and conducting regular events/activities/workshops related to digital payment missions, digi-locker facility, MOOCs, digital literacy, consumer services and technical fests for our students and staff. Cell has worked in a direction to implement National Academic Depository, Digi-Locker scheme, SWAYAM Prabha, Credit transfer via SWAYAM MOOCs, Digital Classrooms, Digital Notice Boards and Lecture Capturing facility in the University premises.

INSTITUTION'S INNOVATION CELL

1. INTRODUCTION

Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation amongst all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years.

MIC has envisioned encouraging creation of 'Institution's Innovation Council (IICs)' across selected HEIs. A network of these IICs will be established to promote innovation in the Institution through multitudinous modes leading to an innovation promotion eco-system in the campuses.

Major focus of IIC

- To create a vibrant local innovation ecosystem.
- Start-up supporting Mechanism in HEIs.
- Prepare institute for Atal Ranking of Institutions on Innovation Achievements Framework.
- Establish a Function Ecosystem for Scouting Ideas and Pre-incubation of Ideas.
- Develop better Cognitive Ability for Technology Students.

Functions of IIC

- To conduct various innovation and entrepreneurship-related activities prescribed by Central MIC in time bound fashion.
- Identify and reward innovations and share success stories.
- Organize periodic workshops/ seminars/ interactions with entrepreneurs, investors, professionals and create a mentor pool for student innovators.
- Network with peers and national entrepreneurship development organizations.
- Highlight innovative projects carried out by the institution's faculty and students.
- Organize Hackathons, idea competition, mini-challenges etc. with the involvement of industries.

The university of has created an eco-system of innovation by establishing an Institution's Innovation Cell of the and Technology Business Incubator, supported by other initiatives including IoT Lab, 3D printing setup for prototyping and testing. These divisions regularly organize activities like seminars, workshops, motivational sessions, Intellectual Property Rights (IPR), field visits and Ideation etc. to inspire the entrepreneurial spirit among the students and participants.

INTERNAL COMPLAINT COMMITTEE (ICC) CELL

The ICC cell (erstwhile Women Cell) was established in 2012 in the. The objectives of the cell is:

- To follow the directives of Hon'ble Supreme Court of India for framing and implementing a policy against sexual harassment of women at work place.
 - To uphold Women's Right to Gender Equality; Right to life and liberty, Right to protection against to protection against Sexual Harassment.
 - To actively and regularly promote a social, physical and psychological environment, both within and outside YMCA, which will raise awareness about and deter acts of sexual harassment of women.
- To uphold the commitment of YMCA to provide an environment free of discrimination and violence against women.

BEST PRACTICES

ACADEMIC AND ADMINISTRATIVE AUDIT

OBJECTIVES OF THE PRACTICE

The objective of the Academic and Administrative Audit is to assess the performance of the university academic Departments/Offices/Cells and highlight their accomplishments and convey suggestions, if any, so that they can improve further in terms of the quality of their work domain i.e. teaching, research, administration, and maintenance of records along with curricular and extra-curricular activities. The visiting committee members for AAA are supposed to give their suggestions on the various points such as faculty and staff, infrastructural facilities, curricular development, research facilities and research output, teaching methods and use of ICT in academic process, feedback mechanism, faculty development programmes, SWOT analysis, mentoring system, generation of funds and their optimum utilization, evaluation methods adopted for internal and external examinations and Future plans of the department.

CONTEXT

The practice of Academic and Administrative Audit was started in order to address whether;

- 1) the arrangements for quality assurance are fit for purpose and conform to the institution's role and mission.
- 2) the standards of higher education align with the expectations.
- 3) the students have access to appropriate learning opportunities through taught provision, private study and supported learning.
- 4) the department are able to promote and enhance high quality teaching and learning.
- 5) the students are fully supported in their academic and personal development to their highest possible levels.
- 6) the planning, resource allocation and quality management is in line with vision and mission of the University.
- 7) the implementation of various policies has been done.
- 8) the academic calendar of the University is adhered with in terms of timelines.
- 9) the offices and other cells are keeping the records and readily retrievable preferably in hard/soft form or through Enterprise Resource portal (ERP).
- 10) the file movement in various (academic departments and administrative offices) is taking place in timely manner.

THE PRACTICE

(a) Methodology

The academic departments administrative offices/cells are expected to submit the necessary information in the format provided by the IQAC of the university. The format is prepared in such a way that it includes all the possible information as required by criteria of NAAC. For example, The required information includes the achievements, curricular, co-curricular activities and extra-curricular activities carried out, participation of students in various activities and their achievements and participation of teachers in national and international conferences, seminars and workshops. The funds generated by the faculty and the department, the purpose and the names of the funding agencies and duration of the project.

It also includes individual faculty profile indicating their contribution in teaching, research and extension activities and their achievements, awards and prizes received. It is advised to all the departments that supporting data regarding all the claims made by the department and individuals should also be kept ready in the departments. The departments are advised to keep all the data such as Feedback forms collected from students and other stakeholders on curricular developments, infrastructural facilities and performance of teachers for validation of the committee. Further, the information about consultancy services, collaborations with other reputed universities and institutions, placement records, students admitted and their results in final examinations, mentoring system and financial support provided to students etc. should also be readily available during the visit of AAA committee visit.

VISIT OF AAA EXPERT TEAM

The AAA committee visits the academic and administrative units of the university as per the visit schedule. The detailed visit schedule is informed well in time to all the departments and administrative sections. During the visit to the departments Chairpersons and Head of Sections have the choice to make a brief presentation about the department on all aspects to the AAA committee and/or provide them the details as per format of information already provided to departments. The committee may interact with teaching and non-teaching staff and may observe the infrastructural and academic/research facilities available in the department. The faculty members usually interact individually with the committee and brief them about the innovative methods adopted in teaching and research and efforts taken for improving the quality. The faculty can also impress up on how their department is different than similar departments in other universities. The committee may also interact with the students to have suggestions from them regarding infrastructural facilities available, performance of teachers, evaluation methods adopted and teaching learning process. Although University has a separate feedback mechanism from students for classroom teaching learning process during mid of each semester.

It is expected that all the departments, administrative offices and cells submit the information in the format for providing Departmental information and for Faculty Profile enclosed here with to IQAC office before in the month of July of each year so that the visit of AAA committee could be arranged in the month of August/September.

EVIDENCE OF SUCCESS

The academic audit of the teachers of various departments of the university is in practice since the year 2016. Academic audit is done after the end of every semester by a committee duly approved by the Vice Chancellor and consists of the Chairperson of the department and at least one senior faculty member of another department of the university as an external expert. At the time of start of this practice, it was observed that the faculty members were publishing the papers in poor quality journals. In fact the research paper publications especially the numbers of research papers in Scopus, SCI and Web of Science journals were not significant. As a result of this audit, faculty members were encouraged to contribute in this regard and numbers increased year by year since then. Teachers were also encouraged to use ICT tools for conducting their classes.

A fully indigenous online ERP portal was also created at the university level for better record keeping in terms of individual faculty members' activities/achievements and the departmental activities as well.

In the year 2018-19, audit was carried out for the administrative offices also along with the academic audit. The committee for this audit consisted of External experts and senior faculty members of the university. On the basis of observations made by the committee, suggestions were conveyed to the respective office heads who responded the same by taking appropriate actions thus improving the working of their respective offices. The ATRs were submitted to IQAC later on and were placed and approved in EC.

PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED

One of the many problems faced during the conduct of the academic and administrative audit was the compilation of data due to its timely unavailability to the IQAC office. It was also felt by the committee that even various activities are being done in the academic departments and administrative offices but they are not being recorded as per the guideline of the various accreditation bodies whether it is NAAC or NBA. For regular and smooth conduct of AAA in the university, timely updation of activities conducted in various departments and offices is also needed on the ERP portal.

The University has a number of academic departments and administrative offices so all the academic departments could not be covered during the AAA in the year 2019. It was difficult to take time from the outside experts and schedule the visit. Sometimes even after scheduling the time the committee members were not available.

Some of the departments were not quite prepared for getting the audit conducted and wanted more time for the same. Many departments/cell took more time to take actions towards the suggestions/observations made by the committee which delayed the compilations. For year 2019-20, the process of conduct of academic and administrative audit was delayed due to spread of COVID-19 pandemic.

360 DEGREE FEEDBACK

360° Feedback: Continuous Improvement through Stakeholders' Perspective

Objectives

1. To adjust and improve current and future actions and behaviors.
2. Helps understand learning objectives, choose the best strategies for the task, and make course corrections throughout the learning process.
3. To improve the performance of staff and students and increase their future potential and value to the university.

The Context

1. The questionnaire

The design of the questionnaire shall be such that the questions are not long and also they incorporate the intent precisely with which it is designed.

2. Getting feedback

People don't like 'wasting' their time sharing their feedback.

3. Getting right feedback

Filling feedback forms have always been boring.

The Practice

Regulatory bodies have mandate to set norms and standards for regulating the quality of educational institutes. Bodies like UGC and NAAC have policies and procedures to orient India's Education system to quality. Stakeholders need to orient their mindset to quality and then only we can dream of a system – that satisfies all.

Quality vs. Quantity has always been a thought provoking issue. As key stakeholder, students are concerned about the expected outcomes. Since the technical education scenario is drifting from output based system to outcome based system, quality in such processes needs to be addressed. It needs to be ensured that the outcome parameters vis a vis the objectives are mapped and the programmes are in tune with the national policies with reference to the global trend.

Satisfaction of stakeholders including students, faculty, alumni and societal expectations has always been a challenge. Since Quality is a benchmark on road to success and thus the improvement scope is bound to be there in any system.

Some of the best practices at J.C. Bose University of Science and Technology, YMCA include Academic Audit, 360 degree feedback, one semester mandatory Industrial training for students and transparent exam system among others.

360-degree feedback, also known as **multi-rater feedback**, **multi source feedback**, or **multi source assessment**, is a process utilized by this university to solicit information from a variety of sources on different aspects. Most often, information solicited in a 360-degree feedback process includes feedback from all the stakeholders of the University. Such feedback can also include, when relevant, feedback from external sources who interact with the University, such as peer group, examiners, alumni etc. 360-degree feedback is so named because it solicits feedback regarding University from a variety of points of view (Students, Alumni, Peers, Industry Experts and Parents).

Fig 1: Stakeholders of University for 360° Feedback

The following table depicts the mechanism for feedback collection from various stakeholders

Sr. No.	Stakeholder	Mechanism of Feedback
1.	Student	Students are required to fill-up Feedback Form during semester whereby they are required to give their feedback on relevance, adequacy and coverage of curricula of each subject along with the performance of teacher in the class, teaching methodology and teaching pedagogy etc. Such feedback is taken by the Department based upon which remedial action is taken as when required.
2.	Alumni	Meetings of Alumni are held at least once in a year under the aegis of Alumni Association. Alumni also visit the campus of the University on various occasions and events. Feedback of Alumni is taken in structured feedback form, which includes feedback of relevance and adequacy of curricula, specifically, vis-à-vis their capability to adapt to the world of work after having studied in the Institution.
3.	Employers	Feedback on curricula and performance of Alumni is taken from the employers not only when they visit the campus for conducting campus interviews but also involving them during the curricula finalization.
4.	Parents	Feedback of parents is taken in a structured feedback form as and when they visit on various occasions and events.
5.	Peer Group	External Academic Experts are normally called for delivering Expert Lectures, Selection of Teachers, Workshops, Conferences, Symposia, Faculty Development Programmes, examiners etc., whose feedback on institutional aspects is taken in addition to the relevance and adequacy of infrastructure facilities specifically labs, workshops, library and central computing facilities etc.

In our University, 360° feedback is collected from all the stakeholders by using online or offline mechanisms. Online mechanism for collection of feedback uses online forms for which links are sent to the stakeholders while offline mechanism uses a set Performa to be filled by the stakeholders.

After collecting data from the stakeholders, the response sheet are being generated at department level and analysed thereof by using predefined parameters. Based upon the report, the departments take appropriate action. The department submits a copy of the report along with the action taken to the Internal Quality Assurance Cell (IQAC).

The feedback process is depicted in Fig. 2.

The stakeholders of our University include Students, Parents, Alumni, Industry Experts and Peer Groups. For the purpose of understanding, here only Student feedback is being discussed.

Student Feedback collection activity is conducted by the respective departments in two ways:

- a) Classroom Feedback (conducted in every semester)
- b) Exit survey (conducted once in the final semester)

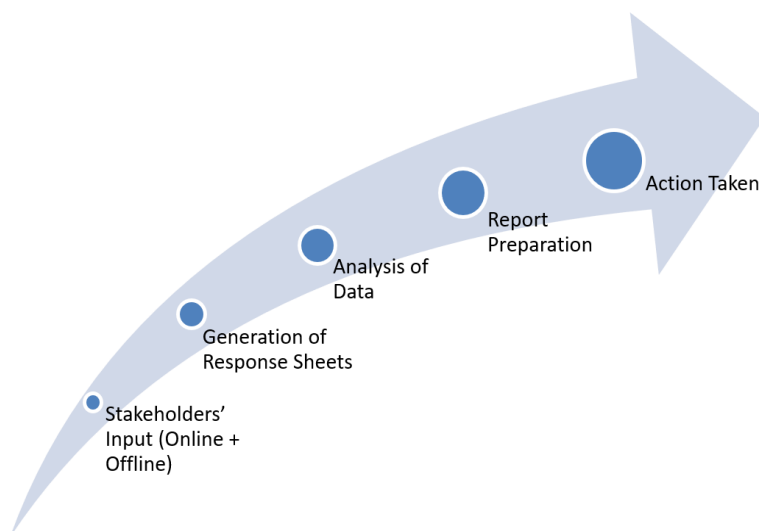

Fig 2: 360 ° Feedback Process

The stakeholders of our University include Students, Parents, Alumni, Industry Experts and Peer Groups. For the purpose of understanding, here only Student feedback is being discussed.

Student Feedback collection activity is conducted by the respective departments in two ways:

- a) Classroom Feedback (conducted in every semester)
- b) Exit survey (conducted once in the final semester)

The predefined parameters for classroom feedback are Subject Matter, Teaching Learning Process, Use of Learning Resources, Evaluation Process and General Points and the question related to each key parameter are given below:

Subject Matter

Was the course planned?
 Was the course coverage adequate?
 Did the topic provide new knowledge?

Teaching Learning Process

Were you able to understand the contents in class?
 Was the interaction in class adequate?
 Were you satisfied with teaching methodology?

Use of Learning Resources

Was the board used effectively?
 Were the projection aids employed effectively?
 Did the overall use of learning resources enhance your understanding?

Evaluation Process

Were adequate assignments/tutorial sheet given?
 Were the assignment and class test challenging?
 Were the same checked properly within seven working days?
 Was the evaluation fair and cleared your doubts?

General Points

Did the teacher meet your expectations?
 Were you satisfied with the course in general?
 Would you like to take another course from the same teacher?
 These questions are designed in such a manner that they precisely cover almost all the key parameters.

The responses of the students are collected and analysed at the Department level. The sample screenshots of the responses and their analysis are shown below in Fig. 3 and Fig. 4:

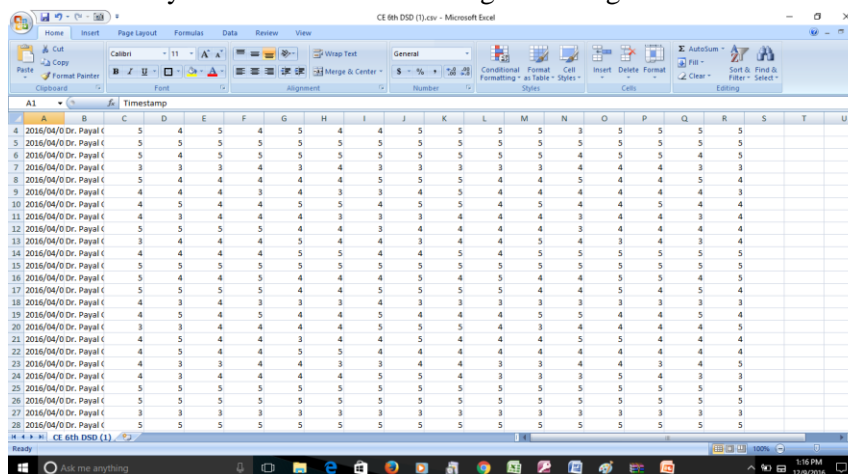

Fig. 3: Sample Responses

Fig. 4: Sample Analysis

The prime aim of 360° feedback is to ensure that every student has access to competent and qualitative teaching which leads to vibrant academic, social and personal growth. The IQAC regularly monitors the activity along with other quality initiatives. We need to continuously incorporate such Quality Initiatives in our systems and follow them in letter and spirit for satisfaction of stakeholders.

Evidence of Success

Feedbacks always pave a way for continuous improvement. The feedback system has helped in many ways, some of the actions include:

1. Introduction of Credit based system
2. Latest Technologies and practices as elective subjects
3. CBCS
4. Grievance Portal
5. Better Sanitation facilities
6. Improved labs and infrastructure

Problems Encountered and Resources Required

1. **It was tough to visualize the hard copy of the feedback forms received from various stakeholders.**

To overcome this we used online google forms for data collection and generated analysis report.

2. Reporting and Action taken

By the end of every semester/ academic year, the departments are advised to submit an analysis report along with an action taken report for the same. In case any action is required at the university level, then the Chairperson submits a report for the same to the IQAC for the needful.

Notes

1. For implementing this any level, It is required to identify all of the stakeholders' whose golden inputs are important.
2. Then the questionnaire needs to be designed depending upon key focus areas.
3. A report format based upon the inputs received from the stakeholders shall also be prepared as per the questionnaire that helps in analyzing the feedbacks in a better way.
4. Feedback should be addressed properly. Actions shall be performed or escalated through proper channel.

Digital Learning Management System (DLMS)

In order to facilitate the students to continue their study in the situation posed by corona virus pandemic, University has developed its own 'Digital Learning Management System' to provide the students a platform to access their study material, e-resources and enable them to interact with faculty members through live classes and discussion forums. Soon after the declaration of complete shut-down of University campus due to COVID-19 pandemic, it was a big challenge before the University to continue the study of students. It was the time, when Digital Cell initiated the process to develop University's own

DLMS to continue the teaching learning process in the online mode. DLMS was developed in a short span of time and was launched on 31st March 2020 for adoption by students and teachers of the University. Later, it was upgraded with the facility of live classes, attendance compilation and online test facility also to fulfill all the requirements of teaching-learning process.

The salient features of DLMS are:

- ✓ Easy to use interface for students and teachers
- ✓ Online scheduling facility of official meetings and live lectures
- ✓ Automated scheduling of live classes and attendance compilation
- ✓ Facility to upload the study material by teachers— in the form of recorded lectures, study notes, assignments, online resources
- ✓ Online assignment submission and evaluation facility
- ✓ 24×7 Anytime, Anywhere access to study material without geographic constraints: accessing uploaded lectures and notes
- ✓ Online audio-textual group discussion forums
- ✓ Online audio-video-textual live chat forum for teacher-student interaction
- ✓ Mail broadcasting facility for targeted groups
- ✓ News/announcements broadcasting in-built
- ✓ Quick access to important e-learning platforms (like SWAYAM, NPTEL, National e-library, University's e-library, Course era, Khan Academy etc.)
- ✓ Online test facility—Objective and subjective tests
- ✓ Online proctoring by image capturing facility during tests
- ✓ Overall administrative control on study material, lectures and assessments

FACULTY OF ENGINEERING & TECHNOLOGY

DEPARTMENT OF MECHANICAL ENGINEERING

INTRODUCTION

The department of Mechanical Engineering has been in existence since inception of institute in 1969. It offered Post- Diploma courses with specialization in three streams viz. i) Machine Tools; ii) Refrigeration and Air-conditioning; iii) Fabrication, Welding and Sheet Metal Technology.

The labs & workshops have been setup with the assistance of German expertise. In 1996, State Govt. of Haryana took complete control of the Institute and upgraded it to University status in Dec. 2009.

The Department of Mechanical Engineering offers courses at UG and PG level. At UG level, B. Tech. course in Mechanical Engineering, started in 1997 with an intake of 60 students and it has been increased 120 students at present. B. Tech. (Hindi Medium) and B. Tech. (Robotics & AI) were started in 2021 with intake of 30. M. Tech. programme in Mechanical Engineering with specialization in Manufacturing Technology and Automation was started from the academic year 2003-04 and has an intake of 18 students. The University had started Ph.D. Course since 2010 and 57 students have registered themselves for the Ph.D. programme in the department.

The Department of Mechanical Engineering has a distinguished record in both teaching and research. The department was shifted to the new building in January 2009 with modern facilities and a dedicated technical and office staff to support the academic programs and research.

The department is actively engaged in research work in the broad area of Design of Mechanical Equipment, Design & Manufacturing, Thermal, Energy Conservation, TQM, Product and Service Quality, Computer Integrated Manufacturing, Manufacturing, Industrial Engineering, Computer Aided Engineering, Just in Time, etc.

The departmental facilities include 16 labs, 3 workshops (Machine Tools, Refrigeration & Air conditioning, Fabrication & Sheet Metal Technology), 8 lecture halls, 1 conference room and 1 seminar hall with Wi-Fi facilities. Department has two centres of excellence in collaboration with Danfoss Industries (P) Ltd. (for Climate and Energy) and Daikin Air-Conditioning (P) Ltd (for Air-Conditioning).

The department has highly qualified and experienced faculty including 11 professors, 02 Associate professors and 13 Assistant Professors. 25 of the faculty members are Ph.D. holders with average experience of 18 years approximately.

During last 5 years, faculty members have published more than 500 papers in various National and International Journals and Conferences of repute in India and abroad.

The Mechanical Engineering Department is also highly active in co-curricular and technical activities. Two of its club namely MechNext Club and SAE India YMCA Collegiate Club are actively engaged in practising latest developments for innovative design of automobile vehicles and has won many prizes at National level.

1. DEPARTMENT VISION

“To be a centre of excellence by producing high calibre, competent and self-reliant mechanical engineers, who possess scientific temperament and would engage in activities relevant to industries with ethical values and flair to research”.

2. DEPARTMENT MISSION

- To provide efficient engineers for global requirements by imparting quality education.
- To explore, create and develop innovations in various aspects of engineering through industries and institutions.
- To emphasize on practical skills and socially relevant technology.

DEPARTMENT OF ELECTRONICS ENGINEERING

1. INTRODUCTION

The Department of Electronics Engineering is committed to impart technical education in the most efficient manner to its students. It was established in the year 2012 (earlier combined with the Electrical Engineering Department and known as the EEE Department running since the inception of YMCAIE). The department has equipped itself with workshops/labs and a syllabus for achieving engineering education excellence, from the support of the excellent faculty of the Department, the syllabus of the Department is composed of fundamental concepts blended with the ultra-modern topic to impart quality technical education, the lab/workshops consist of the basic instrument to software/simulators for providing the student a feel of the industrial work environment.

Department of Electronics Engineering is running various UG, PG, and Ph.D. programs.

2. DEPARTMENT VISION

To be a Centre of Excellence for producing high-quality engineers and scientists capable of providing sustainable solutions to complex problems and promoting cost-effective indigenous Technology in the area of Electronics, Communication & Control Engineering for Industry, Research Organizations, Academia, and all sections of society.

3. DEPARTMENT MISSION

1. To frame a well-balanced curriculum with an emphasis on basic theoretical knowledge as well as the requirements of the industry.
2. To motivate students to develop innovative solutions to existing problems for the betterment of society. Collaboration with the industry, research establishments, and other academic institutions to bolster research and development activities.
3. To provide infrastructure and financial support for the culmination of novel ideas into useful prototypes.
4. To promote research in emerging and interdisciplinary areas and act as a facilitator for knowledge generation and dissemination through Research, Institute - Industry and Institute-Institute interaction.

Date	Name of Activity	Number of Participants
11/04/2022 to 04/05/2022	Value Added Course on “Pyhon Programming With hands on Training”	200
27/05/2022	EMF Radiation Myths	90
06/04/2022	Expert Lecture Industry 4.0	73
07/02/2022 to 12/02/2022	AICTE Sponsored Online STTP on "Cloud Computing and Internet of Things" Feb 2022	115
31/01/2022	Webinar on topic Career option after B.Tech.	189
24/01/2022 to 29/01/2022	AICTE Sponsored Online STTP on "Recent Challenges and Development in Solar Energy Technologies and its Applications" Jan 2022	77
20/09/2021 to 25/09/2021	CSR - Training on Introduction to Home Appliances Technology by GODREJ	132
9/8/2021	webinar on “Indian Knowledge system: Language, art and Culture”	100

19. DETAIL OF MOUs SIGNED DURING THE YEAR

Sr. No.	Title of MOU	Academic Partner/Industry	Duration	Date of MOU
1.	To provide assistance in the area of teaching, research, exchange of Faculty and students, cultural exchange and staff development, as deemed beneficial by the two institutions.	Central Electronics Engineering Research Institute, Pilani	18.07.2019-17.07.2024	18.07.2019
2.	To exchange Staff and Students (Faculty & Research Scholars; Under Graduate, Post graduate & Doctoral Students and Research Project Employees) regarding Academics and Research for the mutual benefit of both institutions.	Semi-Conductor Laboratory Department of Space "Govt. of India"	22.05.2017-21.05.2027	22.05.2017
3.	To impart industrial training to the engineering/Technology/management students etc.	Mahindra Telephonic	02.05.2017-01.05.2022	02.05.2017

BRIEF DETAILS ABOUT THE ACTIVITY

An EMF Awareness workshop to remove myths about ill health effects of radiations from Mobile Towers was organized by Department of Electronics Engineering, J.C. Bose University of Science and Technology, YMCA, Faridabad in collaboration with the Department of Telecom, Haryana LSA. Sh. Amar Relan, Director, DoT gave a presentation on the topic & explained to the students that radiations from Mobile Towers are Non ionizing radiations & the emission levels are below the limits prescribed by DoT, Govt. of India. Further in India the prescribed emission limits are 1/10th of levels prescribed internationally by ICNIRP (International Commission on Non Ionizing radiation protection). In addition to the Self Certifications by the Telecom Service Providers, the radiation levels from the towers are randomly tested by DoT teams. He also gave a practical demo on how the radiation level is measured in field by DoT team.

To encourage the concept of work-life balance, J.C. Bose University of Science and Technology, YMCA, Faridabad has organised a five-day Faculty Development Program on "Work-Life Balance for Technocrats" from 20th May to 24th May 2022. The program was organized by the Department of

Management Studies in collaboration with the Department of Electronic Engineering. This program was sponsored by AICTE.

There is an evident need of internet of things. IoT has practically taken many industries around the world including precision agriculture, healthcare, energy, transportation and building management. Cloud Computing and IoT are one of the most trending technologies in today's world. Although these are two different technologies, it is very interesting to learn about the interdependence of cloud computing and IoT. In this STTP, we will briefly explain the close relation between Cloud Computing and IoT, while covering diverse topics related to that.

The prime objective of the workshop was to make students aware of upcoming technologies in the industry. Mr. Kishore Narang's speech began with a discussion of the history of technology. The guest speaker enlightened the students with the eventual growth of technology in the industry. In the end, the speaker discussed various boons and banes of the technologies.

The Electronics Engineering department in coordination with GODREJ Inc. conducted training for workshop staff and students from 20th -25th September 2021.

Electronics Engg Deptt JCBUST YMCA Fbd organized a one-day webinar on the Indian Knowledge System: Language, art, and Culture. Prof. Pradeep Dimri, keynote speaker of the webinar discussed the relevance of traditional knowledge systems and ancient wisdom in contemporary times. He called for the conservation, promotion, and dissemination of the cultural wealth of the country as it is crucial to preserve the country's identity. Dr Dimri emphasized that science, culture, civilization, art, history, etc are an integral part of our glorious tradition and our young generation should be aware of and respect these traditions.

The first lecture was delivered by Dr. Pradeep Kumar Dimri on topic "Interfacing of Microprocessors with Peripheral Devices". He has delivered his talk successfully by exploring the interfacing of microprocessors with peripheral devices. Microprocessor based system design involves interfacing of the processor with one or more peripheral devices for the purpose of communication with various input and output devices connected to it. To communicate with the outside world microcomputers use peripherals (I/O devices). Commonly used peripherals are: A/D converter, D/A converter, CRT, printers, Hard disks, floppy disks, magnetic tapes etc. Peripherals are connected to the microcomputer through electronic circuits known as interfacing circuits. The faculty members, workshop staff, research scholars and PG students of the electronics department have attended this lecture.

DEPARTMENT OF CIVIL ENGINEERING

1. INTRODUCTION

The Department of Civil Engineering was established in 2018 with the aim of providing quality education and training to students in the field of Civil Engineering. The department offers a Bachelor of Technology (B.Tech.) program in Civil Engineering from 2018 and Environmental Engineering from 2021, which has been duly approved by the All-India Council for Technical Education (AICTE), ensuring that the program meets the highest standards of technical education in India. The curriculum of the program emphasizes practical-based teaching and research, tailored to the requirements of the Civil and Environmental industry. In line with this goal, the department has also launched a Ph.D. program in Civil Engineering in 2021, aimed at providing research-oriented education and advancing the field of Civil Engineering. With a focus on excellence in teaching, research, and innovation, the Department of Civil Engineering is committed to preparing the next generation of Civil Engineering professionals who will contribute to the development and growth of the country.

2. DEPARTMENT VISION

The vision of the Department of Civil Engineering is to be recognized as a center of excellence in education, research, and innovation in the field of Civil and Environmental Engineering. The department aims to prepare graduates who are well-equipped with technical knowledge and practical skills, and who are capable of addressing the complex challenges facing the industry and society.

3. DEPARTMENT MISSION

The mission of the Department of Civil Engineering To provide efficient engineers for global requirements by imparting quality education with an emphasis on practical skills and social relevance.

To explore, create and develop innovations in various aspects of engineering through industries and institutions.

DEPARTMENT OF ELECTRICAL ENGINEERING

1. INTRODUCTION

The Department of Electrical Engineering is committed to impart technical education in the most efficient manner to its students. It was established in the year 2012 (earlier combined with Electronics Engineering Department and known as EEE Department running since the inception of YMCAIE). The department has equipped itself with workshops/labs and syllabus for achieving engineering education excellence, from the support of excellent faculty of the Department, YMCA UST has established itself as well-known entity in the field of Electrical education. The syllabus of the Department composed of the fundamental concepts blended with the ultra modern topic to impart quality technical education, the lab/workshops consists of the basic instrument to software/simulators for providing the student a feel for industrial work environment. Department of Electrical Engineering is running various UG, PG and Ph.D. programs.

2. DEPARTMENT VISION

Electrical Engineering Department congregates the challenges of new technological advancements to provide comprehensively trained, career focused, morally strong accomplished graduates, cutting edge researchers by experimental learning which contribute to ever changing global society and serve as competent engineers.

3. DEPARTMENT MISSION

To commit excellence in imparting knowledge through incubation and execution of high quality innovative educational programs. To develop the Research oriented culture to build national capabilities for excellent power management. To inculcate and harvest the moral values and ethical behavior in the students through exposure of self -discipline and personal integrity. To develop a Centre of Research and Education generating knowledge and technologies which lay ground work in shaping the future in the field of electrical engineering.

Faculty and Department		
	Name	Tenure
Dean of Faculty	Dr M.L Aggarwal	18.05.2020 to till date
Chairperson of the Departments	Dr. Poonam Singal	01.05.2019 to 30.04.2022
Chairperson of the Departments	Dr P.R Sharma	24.02.2021 (Absence of Poonam Singal)
Chairperson of the Departments	Prof. Anju Gupta	01.05.2022 to till date

The Department of Electrical Engineering has developed a Control System Lab, detail of which is as follows:

With the objective to connect theoretical material taught in lecture courses with the realities of physical hardware and to give students thorough understanding of basic concepts and phenomenon of control theory the Department of Electrical Engineering has setup a Control Systems Lab in Electrical Engineering Department.

- | | |
|------------------------------------|-------------------|
| 1. Laboratory/Project Coordinator: | Dr. Yogendra Arya |
| 2. Total Cost of equipments: | Rs. 1,36,589/- |
| 3. Details of equipments: | 1. PID controller |

2. Linear System Simulator
 3. Temperature Control System
 4. DC Position Control System
 5. Potentiometric Error Detector
 6. Study of Synchro Devices
4. Benefit to students/researchers:
- After the successful completion of the Lab course, the student will be able to get basic knowledge of control system specifically related to
1. Study the effect of P, PD, PI and PID controller on a closed loop system.
 2. Execute the time response of a first/second order control system.
 3. Control the position of D.C servo motor.
 4. Study the relation between synchro transmitter and receiver outputs.
 5. Study the performance of PID controller to control the temperature of an oven.
 6. Study the potentiometric error detector

The Department of Electrical Engineering has developed a Microprocessor Lab, detail of which is as follows:

Introduction of Lab

This laboratory is used to provide intensive practical exposure to learn the assembly language programming systematically for the different issues of microprocessor and microcontroller. Students are extensively exposed with the interfacing of microprocessor and microcontrollers with other peripherals. The course will help to analyse, implement and understand the interfacing circuits for various applications of Microprocessor-based system.

1. Laboratory/Project Coordinator: Ms. Rachna
2. Total Cost of equipments: Rs. 1,49,506/-
3. Details of equipments:
 1. LED Array Module
 2. 8085 Microprocessor kit
 3. 8086 Microprocessor kit
 4. Motor Drive Module
 5. Stepper Motor Module
 6. 8051 Universal Developmental Platform
 7. Input Interface module
 8. ADC Module
 9. Computer Interface Module

10. Seven segment module

11. Display Module

4. Benefit to students/researchers:

After the successful completion of the Lab course, the student will be able to get basic knowledge of microprocessors specifically related to architecture and assembly language programming of 8085 and 8086. They will be exposed to microprocessor interfacing applications too.

24. EXPENDITURE INCURRED ON ACADEMIC SUPPORT FACILITIES DURING THE YEAR

Sr. No.	Name of Item Procured	Academic Utility	Cost
1.	Desktops (07 Nos)	For different labs of the department	4,20,000/- (approx.)

25. DETAIL OF PROMINENT ACADEMIC ACTIVITIES CONDUCTED BY THE DEPARTMENT (01/07/2021 TO 30/06/2022)

Six days Online AICTE SPONSORED STP on “Vehicle Techniques with OPAL-RT Solutions
(20-25 December 2021)

Two days Online workshop on "Design and Development of Electric Vehicle using Ansys"
(26-27 November 2021)

6 days Offline STTP on “AutoCAD for Engineers with PLC Basics” (25 june- 2 july 2021)

A seminar on "Career Opportunities after B.Tech"
held on 18th May'2022

BRIEF DETAILS ABOUT THE ACTIVITY

1. This STTP covers the entire spectrum of design, technology and analysis involved in the electric vehicle development cycle. It aims to deliver the right tools and skills for EV Systems Modelling and simulation that includes EV technology, operations, battery systems and functions, power train systems and components for better simulation and modelling using OPAL-RT hardware and simulator.
2. The objective of the Workshop was to get insight details of various aspects related with the basics of Electric Vehicles, its design and analysis using Ansys Software. To understand the four pillars which form the basis electrification of electric vehicle namely Battery, Traction Motor, Power Electronics and Systems Engineering and how ANSYS helps in different aspects like reducing battery cost and increasing life, meeting EMI– EMC regulations and developing fuel cells.
3. The training was a combination of technical seminars, presentations and practicals. The key concepts are delivered through practical experience under the guidance of industry-expert instructors.
4. Mr. Arjun Chhabra gave seminar on career opportunities after B.Tech. He discussed that pursuing higher studies is another most popular career option after engineering. After completing the B.Tech course the students can take admission to an M.Tech program. He informed that students can also appear for the GATE exam which will test comprehensive understanding of undergraduate engineering subjects and help them to enter IITs and NITs for M.Tech.

INFORMATICS & COMPUTING

DEPARTMENT OF COMPUTER ENGINEERING

1. INTRODUCTION

The Department of Computer Engineering aims to promote academic growth by offering high quality UG, PG and Doctoral programmes. Department aims to make a place at both National and International level by producing high quality ethically rich computer engineers and IT professionals conversant with the state-of-the-art technology with the ability to adapt the upcoming challenges in information technologies and their applications to cater to the ever changing industrial & societal needs. The hallmark of the department is a team of passionate academic staff with a wide range of research interests. The department was established in 1991, currently offers B.Tech courses in CE, CE with specialization in Data Science & IT; and master courses in CE and CSE. The doctoral programme was started in 2010. The department has modern and state of the art laboratories.

2. DEPARTMENT VISION

The department aims to make a place at both national and international level by producing high quality ethically rich computer engineers conversant with the state-of-the-art technology with the ability to adapt the upcoming technologies to cater to the everchanging industrial demands and societal needs. It endeavours to establish itself as a centre of excellence by contributing to research areas having IT impact on the people's life and nation's growth.

3. DEPARTMENT MISSION

To provide the future leaders in the area of computer engineering and information technology through the development of human intellectual potential to its fullest extent.

To enable the students to acquire globally competence through problem solving skills and exposure to latest developments in IT related technologies.

To educate the students about their professional and ethical responsibilities.

To ensure continuous interaction with the industry and academia through collaborative research projects.

Faculty Development Program on 'Computer Vision and Image Processing'

BRIEF DETAILS ABOUT THE ACTIVITY

1. A week long online Short-Term Training Program (STTP) on 'Emerging Research Areas in Big Data Computing' was organized by the Department of Computer Engineering, J.C. Bose University of Science and Technology, YMCA, Faridabad. The weekly programme, sponsored by the All India Council for Technical Education (AICTE) was divided into three sessions per day. Bhopal-based Rajiv Gandhi Pradyogiki Vishwavidyalaya's Vice Chancellor Prof. Sunil Kumar attended the inaugural session as the Chief Guest. The session was presided over by Vice Chancellor Prof. Dinesh Kumar. Registrar Dr. S.K. Garg was also present on this occasion.

One week Online Faculty Development Programme on "Internet of Things" sponsored by AICTE Training and Learning (ATAL) was organized by Department of Computer Engineering J. C. Bose University of Science and Technology, YMCA, Faridabad, from 13th September – 17th September, 2021. This FDP was planned to provide hands on training on various IoT modules so that participants can learn to build their own IoT products for different application domains and to also make participants learn real world application scenarios of IOT along with its social and economic impact using various case studies. The FDP was attended by 170 participants of various institutions from across the country

The week-long Short Term Training Program (STTP) on 'Emerging Research Areas in Big Data Computing' organised by the Department of Computer Engineering, J.C. Bose University of Science and Technology, YMCA, Faridabad concluded today. The programme was sponsored by the All India Council for Technical Education. The programme was attended by scholars and experts from the field of education, as well as industry professionals. A total of 80 participants participated and got benefitted in this Short term training programme.

The Department of Computer Engineering of J.C. Bose University of Science and Technology, YMCA, Faridabad organized a three-day hands-on workshop on 'Microsoft Office for Girl Students of Computer Centre' from 11th Oct, 2021 to 13th Oct, 2021 conducted by Sewa Bharti, Haryana (Purvi). The objective of this workshop was to provide basic understanding of MS Office to the girl students that will enable them to pace with current trends. Vice Chancellor Prof Dinesh Kumar congratulated and appreciated the Department of Computer Engineering for providing an opportunity to

these students in enhancing their skillset. He also added that such events shall be organized by the university in future also for aspirants.

Department of Computer Engineering of JC Bose University of Science and Technology, YMCA, Faridabad organized AICTE sponsored 5 day Faculty Development Program on 'Computer Vision and Image Processing' from 30th May to 3rd June, 2022. FDP got the participation of 45 faculties and Phd Scholars from different organizations. FDP constituted of expert Lectures covered by eminent faculties from IIT, NSUT, NIT, GGSIP university, JIS Kolkata in 5 days. They covered various domains and gave insight knowledge about the concerned subject to the participants.

DEPARTMENT OF COMPUTER APPLICATIONS

DEPARTMENT OF COMPUTER APPLICATIONS

1. DEPARTMENT VISION

The department aims to make a place at both national and international level by producing high quality ethically rich computer engineers and IT professionals conversant with the state-of-the-art technology with the ability to adapt the upcoming challenges in information technology and their Applications to cater to the ever changing industrial and societal needs. It endeavours to establish itself as a centre of excellence in teaching and research to produce skilled human resources for sustainable nation's growth and having technological impact on the people's life.

2. DEPARTMENT MISSION

- To provide the future leaders in the area of computer Applications and information technology through the development of human intellectual potential to its fullest extent.
- To enable the students to acquire globally competence through problem solving skills and exposure to latest developments in area of computer Applications and information technologies.

FACULTY OF MANAGEMENT STUDIES

DEPARTMENT OF MANAGEMENT STUDIES

DEPARTMENT OF MANAGEMENT STUDIES

1. INTRODUCTION

The Department of Management Studies is one of the faculties of J.C. Bose University of Science and Technology, YMCA formerly known as YMCA University of Science and Technology. The University is presently NAAC accredited 'A' Grade State Government University and most of the University Teaching Departments (UTDs) are accredited by National Board of Accreditation.

The Department of Management Studies came into existence in the year 2008 with MBA program offering specializations in Information Technology, Operations and Power Management. The program was meant for technical graduates only. Since 2011, the MBA program has been opened for all graduates. With an aim to promote academic growth at various levels, now department offers following high quality management programs:

- MBA (with dual specializations)
- MBA - Executive
- BBA
- Ph.D.

The department follows international standard curricula which are developed in consultation with eminent academicians and industry practitioners. The program delivery is done by well qualified, competent, research-oriented, and experienced faculty and experts from industry.

2. DEPARTMENT VISION

To build aspiring managers and entrepreneurs possessing good analytical skills and leadership qualities for effective decision making to contribute to the society and the nation.

3. DEPARTMENT MISSION

1. To provide a learning environment to young aspirants by introducing suitable pedagogy and innovative industry-based curriculum.
2. To provide best research facilities for developing analytical capabilities.
3. To impart effective managerial skills for transformation of raw minds into effective managers and entrepreneurs.

The FDP Coordinators of the program include Dr Dushyant

Shukla, Dr Anushree Chauhan, Dr Sunil Jadav and Dr Arti Gupta. The participants included the faculty members of different departments of JC Bose University of Science and Technology, YMCA, Faridabad as well as the faculty members of other institutes and universities. Apart from this, PhD scholars has also participated in the program. There were 7 faculty members from outside the university from Faridabad region, 11 PhD scholars and 40 faculty members from different departments of JC Bose University participated

2. The Department of Management studies conducted a seminar titled, “Opportunities and support systems for new Entrepreneurs” on 9th August 2022. The focus of the program was to discuss about the different aspects related to support systems and its benefit for the new entrepreneurs. The main objective of this program was to make the attending participants aware of the various opportunities available for the budding entrepreneurs. Inauguration of the program took place in the auditorium of the University. The participants were addressed by Prof S. K. Tomar, hon’ble Vice Chancellor of the university, Dr Ashutosh Nigam (Dean, department of management studies) delivered the welcome address, Dr Rachna Agrawal (Chairperson, department of management studies), apprised the initiative of the Department for organizing such events. All the faculty members of the department were also present in the inaugural session. The program included students of MBA and BBA. The experts for the program were Mr. Rajiv Chawla, Chairman I Am SME of India and Jairaj Group of industries and Ms. Saloni Kaul, the Entrepreneur’s coach and founder CEO “It’s People”. The program had two sessions of 2 hours each. Mr Rajiv Chawla discussed about the connection between entrepreneurship and development of the community. People with vision can foresee future. He focused on guiding and mentoring students about the shortest path to golden world of entrepreneurship. Even a college or school dropout can become a successful entrepreneur like Facebook and Instagram founders. He urged students to create new products and services. Young generation is the biggest competitor for traditional businesses as they have access to new technology, internet and various skill development programs and they could adopt it with ease.

The greatest learning from the year 2020 was- “Man plans and God decides.” According to him, even if you have a laptop and internet connection, you could run a successful business. You don’t need to have your parents’ money because the government of India have backup plan for the support. The biggest asteroid that is hitting traditional businesses is Exponential Technology. He shared various examples that how exponential entrepreneurs are a threat to traditional businesses. Three stages i.e., Digitalization, Deception and Dematerialization are disrupting traditional businesses. There are various opportunities available in India like Health & Fitness Industry, Agriculture & Food Processing, Energy Efficient Products, Green Technology, Products for Women and Products for Millennials etc. In last 10 years, more than 500 unicorn companies were set up in India. Dr Rajiv Sindwani & Dr Sapna Taneja coordinated the event with the support of members of the organizing team of the department.

3. A motivational session was organized by Dept. of Management Studies in association with training and placement office on 02nd December 2021 in Auditorium (Offline mode). The session started with a welcome address by Dr. Rashmi & Dr. Shruti followed by presentation of memento by Chairman (Department of Management Studies) Dr. Ashutosh Nigam. This session was delivered by Mr. Sanjiv Vashisht who had more than 20 years of experience in delivering motivational sessions in various institutions. The topic of the session was “What are they looking for?-Requirement of Corporate’s Today” is most relevant in today’s time. This session provided an opportunity to BBA, MBA & B.COM (Hons.) students to understand future work scenarios and the skill set that they need to acquire in order to get

absorbed in the future job market. Apart from this self-analysis exercise were conducted with students on stage to build their confidence. Around 100 students made their presence for the session. The session concluded with a vote of thanks by Dr. Shruti.

4. The Department of Management Studies, J C Bose University of science and technology, YMCA Faridabad organized a webinar titled “Financial Literacy through Gamification” on 5 th July 2021 from 11am to 1 pm. The guest speaker for the webinar was Mr Aman Pal Singh Chawla, Founder, Advisor Zaroori hai. The session was enthusiastically attended by students of MBA and BBA. The webinar started with a welcome address by Dr Jyotsana Chawla, coordinator of the webinar. She proposed a welcome note and invited the speaker to discuss various aspects related to financial literacy. Firstly, Mr Aman Pal shared the relationship between savings, expenditure, investment and inflation. He shared with the students how the savings can be channelized in the most profitable ventures. He motivated students to develop the habit of saving so that it can be converted into investments. He guided students to start thinking about future expenses and asked them to start with small savings and continue with it throughout their life. He emphasized on the mantra, “Never depend on single income, instead make investment to create a second source of income for yourself”. He further narrated to the students that investment should be goal oriented. Start managing the finances of your family first then start looking for the options for increasing the investment. He highlighted that no saving is small, we must give importance to goal planning, and investment should always be goal oriented. He also discussed the various options available to make investments and focused upon diverse investment of funds. At the end, the speaker conducted a quiz for the students. Ms. Gunjan Verma won the quiz competition and was offered a one-month internship by the expert. The expert very well replied to the queries of the students. The webinar was attended by a total of 100 students and faculty members of the department. The webinar was coordinated by Dr Jyotsana chawla and Dr Anushree Chauhan as faculty coordinators and Vinay Bisht, Dhruv kaushik and Sneha Tripathi as the students’ coordinators. The webinar ended with a vote of thanks by Dr Anushree Chauhan, coordinators of the webinar.

DEPARTMENT OF BUSINESS STUDIES

B.com (H) First Batch 2021-2024

DEPARTMENT OF BUSINESS STUDIES

1. INTRODUCTION

The Department of Business Studies is one of the faculties of J.C. Bose University of Science and Technology, YMCA formerly known as YMCA University of Science and Technology. The University is presently NAAC accredited 'A+' Grade Haryana State Government University and most of the University Teaching Departments (UTDs) are accredited by National Board of Accreditation. The Department of Business Studies came into existence in the year 2020 with three year regular B.com (H) program. The department follows international standard curricula which are developed in consultation with eminent academicians and industry practitioners. The program delivery is done by well qualified, competent, research-oriented and experienced faculty and experts from industry.

2. DEPARTMENT VISION

To build aspiring managers and entrepreneurs possessing good analytical skills and leadership qualities for effective decision making to contribute to the society and the nation.

3. DEPARTMENT MISSION

1. To provide a learning environment to young aspirants by introducing suitable pedagogy and innovative industry based curriculum.
2. To provide best research facilities for developing analytical capabilities.
3. To impart effective managerial skills for transformation of raw minds into effective managers and entrepreneurs.

on 4th May, 2022.

13. BRIEF DETAILS ABOUT THE ACTIVITY

Management Development Program on Business Analytics Using R

The Department of Business Studies for the first time conducted two days Management Development program on “**Business Analytics Using R**” on 23rd and 24th April 2022. As many as thirty-two mid-level professionals from academia and industry attended the program. More than 20 participants from industries such as Carrier Air conditioning Pvt Ltd, Huges Communication Pvt Ltd, EXL Service, Titan Industries, HCL Technologies, Indian Oil Corp Ltd and Steel Authority of India Limited designated at the level of DGM, AGM, Manager, Assistant Manager were benefited from the program. During two days of MDP, the sessions were delivered by eminent speakers Dr Sourabh Gupta & Dr Srinivan. Dr. Saurabh, Ph.D. from University of Southern Mississippi, USA, with 18 years of experience in business analytics elaborated about business analytics, skill sets, technology, process, and techniques for business data analysis to the participants. Dr. R. Srinivasan, Professor at KIET School of Management, with more than 35 years of rich academic and industry experience provided hands-on experience of data analysis using software JMOVI and R with simulation methods on real-life business case study and dataset. It built the foundation for advancement in the area of business analytics. Furthermore, data visualization, sentiment analysis and predictive modeling was performed using R software using different case studies.

FACULTIES OF SCIENCE

DEPARTMENT OF PHYSICS

DEPARTMENT OF PHYSICS

1. INTRODUCTION

The Department of Physics was initially a part of the Department of Humanities and Sciences and became a full-fledged department in 2018. The department of Physics runs the undergraduate program (B.Sc. Honors), post-graduate program (M.Sc.) and doctoral degree program for the students who satisfy the eligibility conditions laid by the university and UGC from time to time. There are thirteen regular faculty members in the Department. Faculty members are enriched with quality teaching experience backed by excellent research in different fields. The Department is nationally known for its contribution in various research domains like material science, nanotechnology, semiconductor devices and energy storage devices.

2. DEPARTMENT VISION

A department that can effectively harness its multidisciplinary strengths to create an academically stimulating atmosphere; evolving into a well-integrated system that synergizes the efforts of its competent faculty towards imparting intellectual confidence that aids comprehension and complements the spirit of inquiry.

3. DEPARTMENT MISSION

To create well-rounded individuals ready to comprehend scientific and technical challenges offered in the area of specialization.

To counsel the students so that the roadmap becomes clearer to them and they have the zest to turn the blueprint of their careers into a material reality.

To encourage critical thinking and develop their research acumen by aiding the nascent spirit for scientific exploration.

Help them take economic, social, legal and political considerations when visualizing the role of technology in improving quality of life.

To infuse intellectual audacity that makes them take bold initiatives to venture into alternative methods and modes to achieve technological breakthroughs.

9.	ICT (Projector/OHP/Interactive Board)	01	NIL

The Department has established the material Science research lab

1. Introduction of Lab

Material Science is a well established field of research in Physics. The research lab established in the Department is equipped with equipments for synthesis of nanomaterials, polymers etc. The characterization of materials viz electrical, thermal and dielectric studies of materials in the form thin films, pellets etc can be performed in this lab.

2. Laboratory/Project Coordinator: Dr. Maneesha Garg

3. Total Cost of research equipments: Around 18 lakhs

4. Research Equipments

- Details of equipments: Keithley electrometer
- Keithley nanovoltmeter
- Spin coater
- Muffle Furnace
- Magnetic Stirrer
- Scientific LCZ meter
- Keithley High voltage unit (upto 1500V)
- Pellet press
- Aczel precision balance
- Two probe setup
- Hot air oven
- Magnetic stirrer (3)
- Thermal coating unit

5. Benefit to students/researchers: Department of physics has 15 full time research scholars and are benefitted by the lab. Moreover this is beneficial for the Post graduate students during their project work.

20. DETAIL OF PROMINENT ACADEMIC ACTIVITIES CONDUCTED BY THE DEPARTMENT (01/07/2021 TO 30/06/2022)

International Conference on Advanced Materials for Societal Applications (ICAMSA-2021) 26-28 October 2021

Audience gathering in International Conference on Advanced Materials for Societal Applications

(ICAMSA-2021) 26-28 october 2021

21. REPORT ON SEMINAR/EXPERT LECTURE SERIES

Sr. No.	Date and Time	Topic	Name of the Resource person	No. of Beneficiaries	Summary
1.	March 25, 2022 3:00-4:00 pm	Renewable Energy Storage Devices	Dr. Anurag Gaur, JCBUST, YMCA	60	The talk covered the fundamental of renewable energy and the supercapacitors with the main focus on the classification and charge storage mechanisms. Then, important performance parameters and their interrelation were presented followed by crucial characterization techniques to examine supercapacitors performance. Further, the Process of hybrid supercapacitor device fabrication was also discussed.
2.	April 6, 2022 3:00-4:00 pm	Recent Trends In Photovoltaics	Dr. Anuj Kr. Arya, JCBUST, YMCA	61	In this talk focus was on four existing technology groups (wafer, thin film, dyes sensitized and organic). It was discussed that earlier projections of third-generation (high- efficiency, low-cost), thin-film technologies haven't yet emerged, since “third-generation” technologies currently have low-cost but also low-efficiency, and discussed with the students about the solar panel self-cleaning technology also.
3.	April 26, 2022 3:00-4:00 pm	<i>Electrochemical Energy Storage Devices</i>	Mr. Aman Joshi, JCBUST, YMCA	69	Electrochemical energy transformation and storing systems, for example, rechargeable Li- ion batteries, supercapacitors, also identified as ultracapacitors, electrochemical supercapacitors, pseudocapacitors and their combinations, familiar by way of supercapatteries, symbolize the extremely proficient and ecologically gentle equipment. Further, EES systems were discussed which show an important utility in electronic and electrical devices with a great concert besides inexpensive cost. Interestingly, among various EES, the most effective energy storage device.
4.	May 12, 2022 3:00-4:00 pm	<i>Recent Trends in Functional Materials for Gas Sensing Applications</i>	Dr. Parveen Kumar Goyal, JCBUST, YMCA	63	The talk covered fundamentals of sensors, synthesis of nanoparticles for sensors and need for polymer composites for gas sensing applications. Basic mechanisms of gas sensing and various critical parameters for the fabrication of good sensing system were also discussed.

DEPARTMENT OF CHEMISTRY

1. INTRODUCTION

The Department of Chemistry, established in 2016, is committed to research and teaching since its inception. The department started Master's in Science (Chemistry) 2-year programme in 2016 and immersed with Ph. D. programme in 2017 and B. Sc. Chemistry (Honours) in 2018, and obligated to core courses in Chemistry for undergraduate B. Tech. students. The objective of Chemistry department is to equip students with techniques and skills so that they can contribute to achieving innovative and indigenous solutions to scientific problems related to our society.

2. DEPARTMENT VISION

Our vision is to enhance our reputation as a world-class teaching and research institution which is recognised for its innovation, excellence and discovery, and attracts the best students and staff worldwide.

3. DEPARTMENT MISSION

- To achieve excellence in teaching and research.
- To meet the challenges of a complex, and modern society through informed social outreach.
- To empower through knowledge and information.
- To develop, enhance, and improve the quality of human resources.
- To cultivate resolute moral and ethical values.

5. Benefit to Students/Researchers:

B.Sc. (Hons.) Chemistry (UG) and M.Sc. Chemistry (PG) Students are able to perform their experiments of curriculum related to their inorganic chemistry practicals. Research Scholars are also able to access the lab equipment/facility as per their requirement along with the permission of coordinator.

Laboratory 2: Organic Chemistry Lab

1. Introduction: The Organic Chemistry Lab (F-10) was constructed in Sept. 2018 with the aim to benefit to the students of M.Sc., B.Sc. and Ph.D courses. The lab is fully designed to conduct all the experiments related to organic chemistry e.g. organic synthesis, estimations and organic mixture analysis.

DEPARTMENT OF MATHEMATICS

DEPARTMENT OF MATHEMATICS

1. INTRODUCTION

The Department of Mathematics mission is to impart a deep understanding of the subject and to prepare the students which will enable them to face the challenges and use their knowledge to make a better world. The department has been running the postgraduate course M.Sc. Mathematics since 2010. In 2018, the department was given a great push when the department started a new undergraduate course B.Sc. (Hons.) Mathematics. The department also offers Doctorate degree in several fields of mathematics like Partial Differential Equations, Quantum Optics, Queuing Theory, Numerical Analysis, Reliability Theory, and Operations Research. The objectives are to develop critical thinking in students, nurture their interest and motivate them for research in mathematics. The students are encouraged to participate in various activities like invited lectures, seminars, workshops, conferences, quizzes etc. Our vision is to be one of the renowned institutes of mathematics both in the fields of teaching and research.

2. DEPARTMENT VISION

A department that can effectively harness its multidisciplinary strengths to create an academically stimulating atmosphere; evolving into a well-integrated system that synergizes the efforts of its competent faculty towards imparting intellectual confidence that aids comprehension and complements the spirit of inquiry. To emerge as a department of science, which will provide strong foundations in the areas of pure and applied mathematics in order to develop innovative minds for interdisciplinary research.

3. DEPARTMENT MISSION

- To create well-rounded individuals ready to comprehend scientific and technical challenges offered in the area of specialization.
- To counsel the students so that the roadmap becomes clearer to them and they have the zest to turn the blueprint of their careers into a material reality.
- To encourage critical thinking and develop their research acumen by aiding the nascent spirit for scientific exploration.
- Help them take economic, social, legal and political considerations when visualizing the role of technology in improving quality of life.
- To infuse intellectual audacity that makes them take bold initiatives to venture into alternative methods and modes to achieve technological breakthroughs.
- To develop strong communication skills among students.
- To develop strong moral values.
- To develop strong foundations in mathematics to have sound analytical and critical thinking ability for innovative solutions in practical problems.
- To continuously improve the basic infrastructure in pursuit of providing the necessary environment for academic excellence.
- To develop a nurturing environment for lifelong learning.

22. DETAIL OF PROMINENT ACADEMIC ACTIVITIES CONDUCTED BY THE DEPARTMENT (01/07/2020 TO 30/06/2021)

Two-Day Workshop on Applications of Mathematics

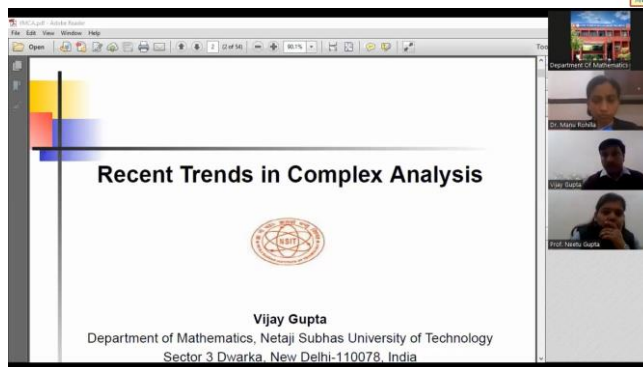

Ten Days Value Added Course on “Vedic Mathematics”

Annual Report 2021-22

National Mathematics Day 2021

Two Days Workshop on “Recent Trends in Complex Analysis”

One Day Seminar on “Applications of Mathematics”

23. BRIEF DETAILS ABOUT THE ACTIVITY

1. To familiarize the students with applications of mathematics, the Department of Mathematics, organized an online two day workshop on “Applications of Mathematics” from 9-10 August 2021. This Workshop was sponsored by Haryana State Council of Science, Innovation and Technology. More than 150 participants from different branches of the University and different parts of the country registered for the workshop. On the occasion, Prof. Neetu Gupta, Chairperson of the Department welcomed the eminent speakers from renowned institutes like IIT Roorkee, IIT Ropar, Punjab University and North cap University. Prof. Sandeep Grover, Dean Quality Assurance and Professor, Department of Mechanical Engineering of the university formally welcomed the chief guest of the program Prof. Kusum Deep. The Chief Guest, Prof. Kusum Deep from IIT Roorkee shared her experience, cultural background of India, treasures of Mathematics from Vedas and applications in nature as well as in daily life. Prof. S. K. Tomar, the then

Honorary Director, UGC-Human Resource Development Center, Dean of Students Welfare, Panjab University was the first speaker of the workshop. Prof. Tomar discussed the practical problems of Calculus of variation with participants. Dr Subash Chandra Martha, Associate Professor, Department of Mathematics IIT Ropar delivered a lecture on modeling, differential equations and its engineering application. On 2nd day of the workshop, Prof. Ashish Arora, Chairperson Department of Mathematics from IKG Punjab Technical University, Jalandhar was the first speaker. He delivered the lecture on the relevance of the work of Ramanujan, the great mathematician in the context of modern works. Dr. Ameeya Kumar Nayak, Associate Professor, Department of Mathematics from IIT Roorkee, explained Curve Fitting: Least Squares Fit to Polynomial in his lecture. Prof. C.B. Gupta, Professor, Department of Mathematics, NorthCap University, Gurugram focussed on “Why study Mathematics?”.

2. A ten days value added course on “Vedic Mathematics” was organized from 18-28 October 2021 for the basic knowledge and awareness which was inaugurated successfully on October 18, 2021. It was organized jointly by the Department of Mathematics and Department of Computer Engineering, J.C. Bose University of Science and Technology, YMCA in collaboration with Shiksha Sanskriti Utthan Nyas, New Delhi. Prof. Neetu Gupta (Chairperson, Department of Mathematics) gave an introduction about the value added course, which was followed by welcome address by Prof. Ashutosh Dixit, Dean, Faculty of Sciences, JCBUST, a course introduction by Sh. Rakesh Bhatia, National Co-coordinator of Shiksha Sanskriti Utthan Nyas and a keynote address by Chief Guest Sh. Atul Kothari, National Secretary, Shiksha Sanskriti Utthan Nyas. In his welcome address, Hon’ble Vice Chancellor, Prof. Dinesh Kumar elaborated about the daily needs of Mathematics. The resource person for the very first lecture of the course was Dr. Shriram Chauthaiwale, who is a retired Lecturer from Amolakchand college, Amravati University, Maharashtra. Dr. Kailash Vishwakarma, Associate Professor, BN PG College Rath, Hamirpur, Uttar Pradesh talked about how to easily multiply two big numbers vertically or crosswise by using different Sutras. Sh. Rakesh Bhatia, Head of Vedic Mathematics branch of Vidya Bharti, discussed the “Nikhilam Navtascarmam Dastah” sutra of Vedic Mathematics. On the 4th day Sh. Rakesh Bhatia, described the duplex method used in arithmetic and algebra. On the 5th day, Dr. Dinesh Madan, Professor, Department of Mathematics, Ch. Bansi Lal University, Bhiwani discussed the journey of ancient mathematics in detail. Dr. Ashish Arora, Professor and Chairperson, Department of Mathematics, IKG Punjab Technical University, Jalandhar talked about divisibility, explained division by Sutras-Paravartya and Ekadhikena. The resource person for the sixth day, Dr. Kailash Vishwakarma discussed finding the cube root of Perfect Cube by Vilokanam method. Vinaculum method & Nikalam of numbers was discussed in detail by Dr. Anuradha Gupta, Associate Professor, Delhi College of Arts and Commerce University of Delhi, New Delhi to make the division simplified and to reduce the computation time. Sh. Rakesh Bhatia discussed the topic of factorization. He explained how to factorize quadratic and cubic expressions with different examples. Dr. Shriram Chauthaiwale explained how to calculate cube of large numbers easily using different sutras like Nikhilam and Anurupyena. On the 8th day, Sh. Rakesh Bhatia explained different methods of finding the HCF and LCM. Dr. Shriram Chauthaiwale explained the various divisibility tests in Vedic Mathematics. Solutions of simultaneous linear equations were explained in detail by taking several examples to demonstrate the various methods and techniques by Prof. Neetu Gupta. Life and work of Bhaskaracharya were discussed by Prof. Aashish Arora. He emphasized that our country has a great legacy in Mathematics, which we need to revisit. Prof. Kuldeep Bansal, Guru Jambheshwar University of Science and Technology, Hisar addressed the valedictory session.

3. To commemorate the 134th birth Anniversary of Srinivasa Ramanujan, Department of Mathematics organized a National Level competition for Poster Making, PPT Presentation, Debate and Rangoli Making in Online and Offline mode. The program was sponsored by Haryana State Council for Science, Innovation and Technology. On 22nd December, two expert lectures were organized. Prof. H.C. Taneja, DTU New Delhi started his talk by recalling the glorious history of Indian Mathematicians. Prof. Pankaj Gupta, Department of Operation Research, University of Delhi delivered a talk on the concept of Linear Programming. Fourteen teams from different departments of the university participated in rangoli competition and there were seven themes, namely, Calculus, Group theory, Mathematical/Geometrical Shapes, Graph Theory, Number Theory, An Eminent Mathematician, Application of Mathematics in our daily life.
4. The Department of Mathematics has organized a two days workshop on “Recent Trends in Complex Analysis” sponsored by Haryana State Council of Science, Innovation and Technology (HSCSIT). The workshop is being organized from 9 - 10 February 2022. Participants from different universities registered for the workshop. On this occasion, Prof. Neetu Gupta, Chairperson of the Department, welcomed worthy Registrar Prof. Sunil Kumar Garg, the Chief guest Prof. Vijay Gupta, Professor, Department of Mathematics, Netaji Subhas University of Technology, Delhi, Prof. Ashutosh Dixit, Dean-Faculty of Sciences and Faculty of Life Sciences, Dr. Anuradha Gupta, Associate Professor, Department of Mathematics, Delhi College of Arts and Commerce, University of Delhi and all the participants of the course. In the keynote address, the Chief guest, Prof. Vijay Gupta gave a brief introduction about the uses of Complex Analysis in different fields of mathematics. Dr. Anuradha Gupta gave a brief history of the origin of complex analysis citing various works done between the 12th century and 16th century. In the second session, Prof. R.C. Mittal discussed how to find Laurent series of a function. In the third session, Dr. Sushil Kumar described about zeroes of analytic Functions, complex integration and Cauchy's theorem. On the second day, in the first session, Dr. Anuradha Gupta explained various topics like contour, punctured disk, residue, singularities and its different types, Cauchy's Residue Theorem, Complex integration with examples. In the second session, Prof. R.C. Mittal explained in detail about Conformal Mapping. In the third session, Prof. S.S. Chauhan discussed how complex numbers came into existence.
5. One day seminar on “Applications of Mathematics” sponsored by the Haryana State Council for Science Innovation and Technology (HSCSIT) was organized by the Department of Mathematics of J.C. Bose University of Science and Technology, YMCA, Faridabad on 29th March 2022. Prof. Neetu Gupta was the convener and Dr. Reena Garg was the coordinator of this event. More than 250 participants attended the event. Prof. B. S. Rajput, former Vice-Chancellor of Kumaun University was the chief guest and keynote speaker in the seminar. Addressing the session, Prof. Rajput detailed the work and achievements of ancient Indian thinkers and philosophers in the fields of Mathematics. Prof. Sujit Bose, superannuated Professor, Calcutta University delivered a talk on “Evolution of Mathematics with an illustration of Data Transmission on globe”. In the second lecture of the day, Prof. L.R. Vermani, superannuated Professor, Kurukshetra University delivered a lecture on “Backtracking and N-Queens Problem”.

DEPARTMENT OF ENVIRONMENTAL SCIENCES

DEPARTMENT OF ENVIRONMENTAL SCIENCES

1. INTRODUCTION

The Department of Environmental Sciences at J.C. Bose University of Science and Technology YMCA Faridabad was established in 2018 by offering two years post-graduate program M.Sc. Environmental Sciences and Ph.D. program in Environmental Sciences. Since 2016, both the programs were part of Department of Humanities and Sciences. The Department is committed to provide the quality education in the area of Environmental Sciences to transform students into post-graduates with high professional skills and values. Presently, the department has five regular faculty members. It has necessary infrastructure, and facilities required for postgraduate courses in Environmental Sciences. The department also caters to teaching the Mandatory Subject Environmental Sciences to all UG programs of the university. The department is engaged in various research projects and provides consultancy services to the environment sector. The academic curriculum is industry/research focused delivered by well-qualified, competent, research-oriented and experienced faculty members and experts from industry. Besides this, the department is playing an active role in developing a sustainable society by organizing various environmental awareness programs at local and national level. With continuous development and expansion of its scientific/research infrastructure and academic faculty, the department aims to become one of the leading departments of the University and the nation in future.

2. DEPARTMENT VISION

A department that can effectively harness its multidisciplinary strength by imparting in- depth knowledge of scientific, technical, legal and social aspects of environment to produce technologically adept Environmental engineers, post-graduates and researchers, that can address emerging challenges to sustainability for the betterment of society.”

3. DEPARTMENT MISSION

- To impart training for capacity building to tackle various Environmental challenges in a sustainable manner.
- To provide holistic education to develop Environment leaders, policy makers and solution seekers.
- To provide interdisciplinary and transformative research in the field of Environmental Science & Engineering.
- To provide technological exposure to the students through industrial training programs.
- To promote outreach activities for public awareness and societal benefit.

EVS Laboratory details

1) Water and Soil Analysis Lab:

Total Cost of research equipment's: 10 Lakh

Details of equipment: 1) pH meter, EC meter, Flame photometer, UV-VIS Spectrophotometer, incubator shaker, Muffle Furnace, Distillation Unit etc.

2) Air Quality Analysis Lab:

Total Cost of research equipment's: 30 Lakh

Details of equipment: Aerosol Monitor (01), Stack emission monitoring Kit (01), Indoor Air sampler (02), Double Distillation Assembly, VOC Analysis, BOB Calorimeter, Respirable dust Sampler (RDS) Distillation Unit etc.

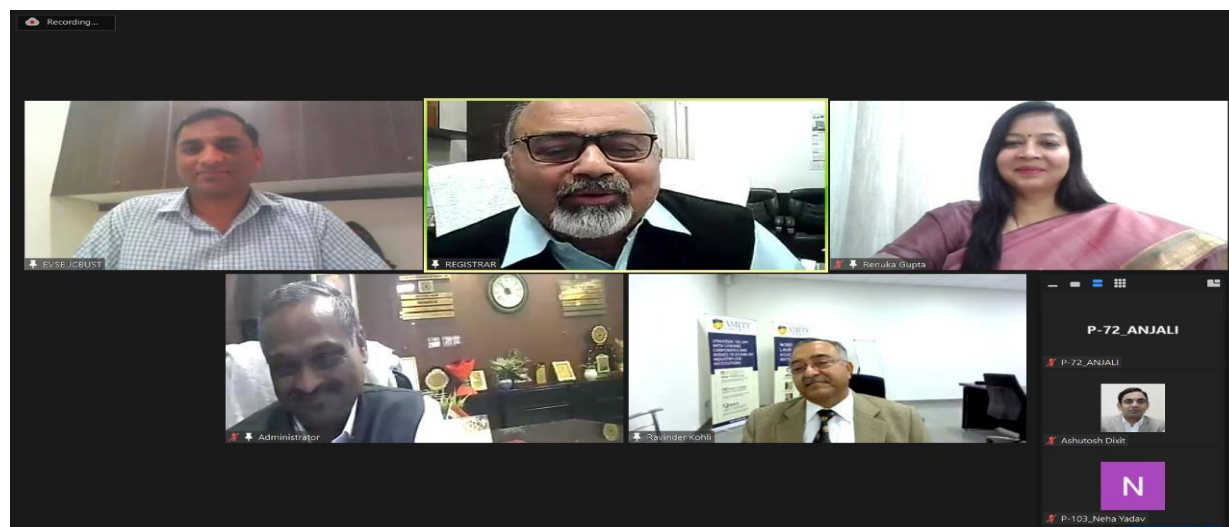

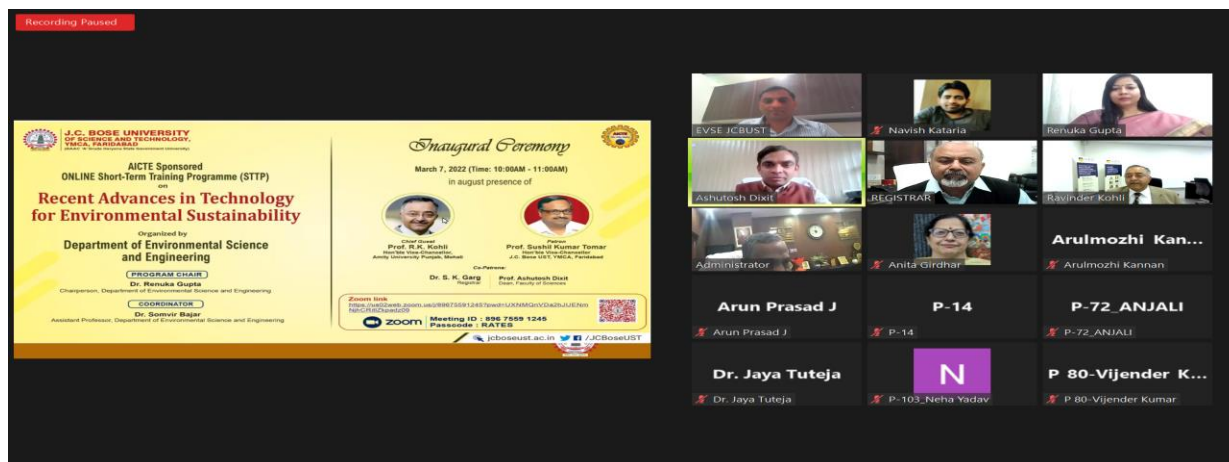

<p>3) Water Research Lab</p> <p>Total Cost of research equipment's: 45 Lakh</p> <p>Details of equipment: pH meter, EC meter, Orbital Shaker, Magnetic stirrer, UV-VIS Spectrophotometer, MP-AES, Orbital Shaker, Centrifuge Machine, Sonicator etc.</p>	
<p>4) Advanced Instrumentation and Research Lab</p> <p>Total Cost of research equipment's: 25 Lakh</p> <p>Details of equipment: Orbital Shaker, Magnetic stirrer, UV-VIS Spectrophotometer (Double beam), Analytical balance, Kjeldahl Nitrogen Assembly, Uranium Analyser etc.</p>	
<p>Development of Horticulture Centre at university including Herbal Garden, Composting Unit, Vegetable Garden and University Nursery:</p>	
<p>Approx. cost - 10 Lakh</p>	
<p>1. Greenhouse: A Greenhouse has been developed to provide an ideal environment to learn about a variety of plant species including herbal, medicinal, succulents and xerophytes. The greenhouse provides a system for plant collection that serves the students, faculty and staff in the university for academic and research purposes. It helps the research scholars, undergraduate and postgraduate students for smooth running of the plant-based experiments. As of now, there are about 100 different plant species in Greenhouse.</p> <p>2. Herbal Garden: University has a rich variety of herbal plants and trees. A herbal Garden containing medicinal plants and herbs of importance have been maintained at the Horticulture Centre of the university. The students and staff benefit from the herbal plants available as and when required.</p> <p>3. Composting Unit: The green waste generated at campus is converted into compost by an in-house built NADEP composting unit. The unit converts the green waste, viz., leaf litter, twigs, weeds, etc. generated throughout the year at the university campus into compost. This compost is utilized for gardening and horticulture purposes within the campus. Use of compost reduces the need for chemical fertilizers. The horticulture team of the university is trained to manage the entire process full time.</p> <p>4. Vegetable Garden: A small vegetable garden has also been developed. Here different vegetables are grown on seasonal basis.</p> <p>5. University Nursery: A small Plant Nursery has also been developed to cater the requirements of residential campus and office area. Different ornamental, flowering and seasonal plant saplings are prepared for placement in campus premises.</p>	

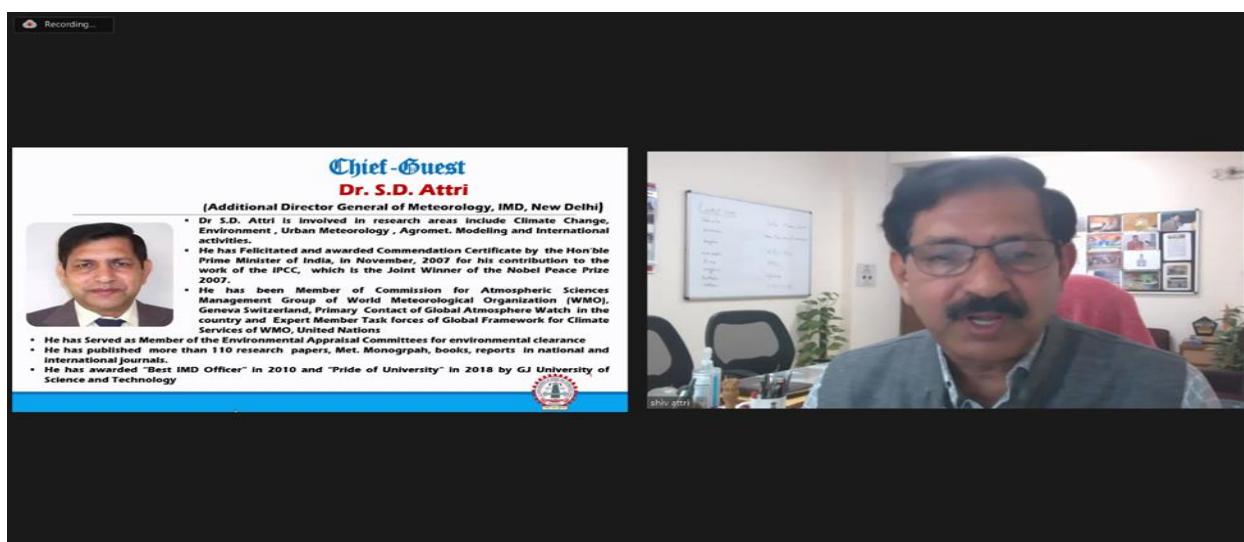

25. EXPENDITURE INCURRED ON ACADEMIC SUPPORT FACILITIES DURING THE YEAR

Sr. No.	Name of item procured	Academic Utility	Approx. Cost (In lakh)
1.	Kjeldahl Nitrogen Assembly	Total Nitrogen estimation.	325000
2.	UV-Vis Spectrophotometer.	Experimental Analysis	853000
3.	Orbital Shaker	Biological sample preparation	285000
4.	Double Distillation unit	Standard Solution preparation and EVS Lab experiments	162000
5.	Aerosol Monitor	Air Sampling	223713
6.	Stack emission monitoring Kit	Air quality Analysis	151875
7.	Indoor Air sampler	Air quality Analysis	70140
8.	Analytical Weighing Balance	Weight measurement and lab experiment	140000
Total			2210728

FACULTY OF LIBERAL ARTS AND MEDIA STUDIES (FLAMS)

DEPARTMENT OF COMMUNICATION AND MEDIA TECHNOLOGY

DEPARTMENT OF COMMUNICATION AND MEDIA TECHNOLOGY

1. INTRODUCTION

CMT Department has modern facilities like Language and media labs and apt/latest equipment to teach all the practical aspects of the course. Also, a dedicated teaching and technical staff to support the academic programs and research.

- The Journalism and Mass Communication program is a comprehensive program including Social Media, Print Journalism, Broadcast Journalism, A-V Program Production, Media Management, Public Relations, Advertising, Media Research, and much more. All these subjects are much more practical than theoretical which makes Journalism and Mass communication courses different from conventional ones.
- Animation & Multimedia program provides a solid foundation in core Graphics, Visual effects, animation and Multimedia, Creative Visualization and animation and visual effects film production skills. Through the academic program, students also develop excellent written and oral communication skills; learn to work as a team and project management.

2. DEPARTMENT VISION

J.C. Bose University of Science and Technology, YMCA Faridabad aspires to be a nationally and internationally acclaimed leader in technical and higher education in all spheres which transforms the life of students through integration of teaching, research and character building.”

3. DEPARTMENT MISSION

- To contribute to the development of science and technology by synthesizing teaching, research and creative activities.
- To provide an enviable research environment and state-of-the art technological exposure to its scholars.
- To develop human potential to its fullest extent and make them emerge as world class leaders in their professions and enthuse them towards their social responsibilities

DEPARTMENT OF LITERATURE AND LANGUAGES

1. INTRODUCTION

Language and Literature emerged as part of Faculty of Humanities and Sciences. The section is now a part of Faculty of Liberal Arts and Media studies that incorporates the strengths of Journalism and Mass Communication, and Animation and Multimedia.

It offers an academically stimulating atmosphere that encourages a spirit of inquiry informed by contemporary literary and socio-cultural concerns. The Masters in English programme carries a perennial appeal and has been part of universities faculties the world over. Despite temporal flux, this particular programme has prospered and been embraced by universities across the globe. The particular course offered by the university has been designed to immerse the students still deeper into the treasure house of world literature sweeping across races, geographical areas, cultures and times.

The courseware offers a vivacious spectrum of readings and literary works, blending the canonized with the marginalized. This Masters programme shall equip students to use the literary and critical skills learnt during the course for creative productions. At the same time, this programme has the unique dimension of being conscious of international corporate demands giving a sweeping exposure to the students, through a string of elective subjects, audit courses and dissertations, to skills required in the work-a-day world of professionals.

2. DEPARTMENT VISION

A department with an academically stimulating atmosphere that encourages a spirit of inquiry informed by contemporary literary and socio-cultural concerns.

3. DEPARTMENT MISSION

- To provide an exposure to canonized as well as marginalized literary texts.
- To introduce students to literary and critical theories and practices.
- Help them take economic, social, legal and political considerations when visualizing the role of trans-media pursuits in improving quality of life.
- To help students identify their area of interest so that they can navigate ultimately towards their area of specialization.
- To synergize the efforts of its competent faculty towards imparting intellectual confidence that aids comprehension.

Benefit to students/researchers: No. of student of English department using lab for B.Tech (CE, IT, Mech EIC, EL ECE) i.e 60*5=300 Students. As branches are added over years the footfall has increased. An odd-even scheme is used clustering CE, Mech and IT as one and EL, EIC, ECE branches for other semesters. More recently, the Civil branch has been added. Around 30 students of BJMC have also been given access.

FACULTY OF LIFE SCIENCES

DEPARTMENT OF LIFE SCIENCE

DEPARTMENT OF LIFE SCIENCE

1. INTRODUCTION

The Department of Life Sciences aims at developing a holistic understanding of the living organisms along with their interactions with other biotic and abiotic components in the biosphere. The courses generate understanding and awareness of macro and microorganisms, their physiology, metabolism along with their use to generate technologies, processes and products beneficial to human society and the ecosystem. An integral part is the understanding of the various techniques and technologies being used as to accelerate and facilitate deeper understanding and manipulation of these organisms for different biotechnological applications. The Department currently offers one undergraduate course (B.Sc. Life Sciences) and four postgraduate courses (M.Sc. Biotechnology/ Microbiology/Zoology/Botany). The course content in all programmes has been generated to provide students with concept development and its translation to practical work involving experimental design, data observation and analysis. Problem solving approach is an integral part of the content to boost the skill sets of the students thereby inculcating within them the zeal for higher studies or entrepreneurship.

2. DEPARTMENT VISION

Department that can effectively harness its multidisciplinary strengths to create an academically stimulating atmosphere; evolving into a well-integrated system that synergizes the efforts of its competent faculty towards imparting intellectual confidence that aids comprehension and complements the spirit of inquiry.

3. DEPARTMENT MISSION

- To create well-rounded individuals ready to comprehend scientific and technical challenges offered in the area of specialization.
- To counsel the students so that the roadmap becomes clearer to them and they have the zest to turn the blueprint of their careers into a material reality.
- To encourage critical thinking and develop their research acumen by aiding the nascent spirit for scientific exploration. Help them take economic, social, legal and political considerations when visualizing the role of technology in improving quality of life.
- To infuse intellectual audacity that makes them take bold initiatives to venture into alternative methods and modes to achieve technological breakthroughs.

FACULTY OF INTERDISCIPLINARY (CENTRE FOR ENERGY STUDIES)

1. INTRODUCTION

Centre for Energy Studies, JC Bose University of Science & Technology, YMCA Faridabad has been established under the aegis of the Faculty of Interdisciplinary Studies and Research in March 2021. Presently, the centre offers M Tech in Energy and Environmental Engineering. Under CES, research on various fields, such as Clean and Sustainable Technologies in the areas of biomass, combustion and utilization of fuels, solar energy, hydro, clean coal, and also prime movers like new cycle using supercritical CO₂, energy storage, gas turbines, IC engines for alternative fuels, smart grids, etc. as well as smart grids shall also be taken up in addition to teaching and consultancy work. The Centre will also focus on the technological aspects of climate change and mitigation options on other environmental issues associated with Energy.

2. DEPARTMENT VISION

To strengthen Renewable Energy Technologies for Sustainable Development through latest Pedagogical tools, continuous efforts to promote Multidisciplinary Research to address the problem of Climate Change and Human Resource Development at various levels.

3. DEPARTMENT MISSION

- To provide Energy and Environment Education and Training Programs for different walk of people.
- To develop the students for leadership roles in the Energy and Environment area as per local and global needs in accordance with the different type of Standards.
- To promote Environment and Energy Consciousness in Multidisciplinary approach for different type of Industries.
- To develop Sustainable, Efficient Innovations and Research to find the solution of Climate Change and reduce Pollution as well as Carbon Foot Print.
- To develop and enhance Environmentally Sustainable, Efficient solutions that are put to the wellbeing of the Society.

COMMUNITY COLLEGE OF SKILL DEVELOPMENT

COMMUNITY COLLEGE OF SKILL DEVELOPMENT

Principal: Dr. Sanjeev Goyal

Vice Principal: Mr. Nitin Goyal

1. INTRODUCTION

The Community College of Skill Development (CCSD) is an alternative system of education, which is aimed at the empowerment of the disadvantaged and the underprivileged – urban poor, rural poor, tribal poor and women – through appropriate skills development leading to gainful employment in collaboration with the local industry and the community and achieve skills for employment and self-employability of the above sections of people in the society.

The Community College model is a flexible, open education system which is based on lifelong learning needs and is accessible to a large number of individuals of the community. It primarily focuses on imparting skill-based education on the models of National Occupational Standards (NOS). It provides Entrepreneurship Orientation to the students.

The Community College of Skill Development was started in the year 2013 with six-month Advance Certificate Course in Welding and Electrician. From session 2014-15, the college is offering one year diploma course in welding and electrician with intake of 50-50 students each. It had marked a special achievement with cent per cent placement of its students. In the session 2016-17, the College started Diploma in Refrigeration and Air-conditioning under MoU with Daikin. Then, in the session 2018-19, the College has started certificate courses, Diploma courses, Advanced Diploma and Bachelor in Vocation (B. Voc.) courses.

Visualizing the need of the future, CCSD started a versatile PG Diploma in Data Science and Analytics and PG Diploma in Yoga Science and Naturopathy from the session 2019-20. The continually rise in the number of skill courses and producing large number of skilled students, CCSD is warmly contributing in government Skill India program.

2. VISION

“Community College of Skill Development aspires to be a national leader in skill development in all spheres which transforms the life of students through the integration of skill, training and character building.”

3. MISSION

- To provide an academically conducive environment, to generate future leaders and professionals of 21st Century.
- To nurture talent of underprivileged section of the society and transforms the lives of millions through academic excellence.
- To incorporate specific need-based education and training opportunities for skill up gradation.

PT. DEEN DAYAL UPADHYAY CENTRAL LIBRARY

PT. DEEN DAYAL UPADHYAY CENTRAL LIBRARY (2019-20)

1. INTRODUCTION

The Central Library of the University has been named after the great Indian thinker and leader Pt. Deen dayal Upadhyay. The Library is situated at ground floor with air-conditioned facility and well equipped with modern technology like e-library Portal, Bar Code Technology, Remote Access facility, Federated Search, Artificial Intelligence based searching, Mobile App etc. It is fully automated with Web Based Library Management System 'LSEase' from LIBSYS Ltd. Web OPAC (Online Public Access Catalogue) facility is available to know the availability of books in the library. Library is having total collection of more than 85000 books, 35 magazines, 16 daily newspapers and more than 120 print research journals. More than 3400 e-journals are being subscribed from the reputed publishers e.g. Elsevier's Science Direct, Taylor & Francis, IEEE, Springer Link and Nature to promote the research activities in the University. More than 7000 titles of e-books from McGraw-Hill, Pearson Education, Tritech, Elsevier and EBSCO are accessible to the users. The Library is also the member of DELNET and EShodh Sindhu consortia.

Nominated Member, Library Committee: Prof. Ashutosh Dixit
