

## **Report on** **The Aptitude Advantage.**

**Mr. Abhishek Pandey**, a mentor and career coach, delivered an engaging guest lecture for BBA students on the topic **The Aptitude Advantage on 28 August, 2025**. The session was highly interactive, with active participation from both students and the mentor which was coordinated by the **Coordinator Dr. Renu Aggarwal**.

Mr. Pandey emphasized the importance of aptitude tests in shaping career paths, especially for students aspiring to pursue an MBA. He discussed examples from major exam boards such as CAT, CET, UPSC, CUET, and others, highlighting how these tests measure essential skills needed for professional growth.

He stressed that in today's competitive world, it is not just degrees or professional courses that make a student successful, but the skills they develop and refine. Aptitude, problem-solving, and analytical thinking are among the most valued skills in the job market.

For BBA students, he pointed out that MBA is the natural next step, and clearing aptitude tests is crucial for admission to top programs. He also cited well-known personalities, such as John Abraham, who have pursued MBAs from reputed universities, reinforcing the value of this path.

The lecture motivated students to focus on building core skills and preparing early for aptitude exams, which will not only help in MBA entrance tests but also in long-term career success.
