Sub: Thesis writing in Latex – regarding

Ph.D. program in our university started in 2010. Thesis submissions started in 2015. Ph.D. thesis preparation format since then has been used as per Ph.D. ordinance. MS-word application is generally used for writing Ph.D. thesis. However, another application 'Latex' is increasingly being used for typesetting of thesis. Latex is a better choice because there are inbuilt features for typesetting thesis in a flexible, intelligent, and aesthetic manner. Due to better features of Latex, competent authority has recommended to use Latex only for submission of Ph.D. Thesis.

In light of above, following is being proposed:

- (a) Latex application shall be used henceforth for typesetting of Ph.D. thesis.
- (b) Formatting of thesis shall be followed as per Ph.D. ordinance.

It is requested to kindly approve the use of Latex application for typesetting of thesis as per Ph.D. ordinance.
