Subject: Hands-On Workshop on Virtual Labs on 3rd June 2021-- Regarding

Our university has become Nodal Center of Virtual Labs, which is an initiative of MoE under the National Mission of Education through ICT (NMEICT) and has been assigned Nodal Center under IIT Delhi. Under this initiative, the faculty and students of Engineering and Science departments will be able to access the facilities of virtual labs. The broad objectives of Virtual Labs are:

1. To provide remote-access to Labs in various disciplines of Science and Engineering to the students at the UG/PG level as well as to research scholars.
2. To enthuse students to conduct experiments by arousing their curiosity.
3. To provide a complete Learning Management System around the Virtual Labs with various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self-evaluation.
4. To share costly equipment and resources, which are otherwise available to limited number of users due to constraints on time and geographical distances.

To acquaint all our faculty members and students about the facilities and usage of virtual labs, University Computer Centre and Digital Affairs is organising a Hands-on Workshop on Virtual Labs in online mode on June 3rd, 2021 in two sessions. The workshop will be conducted by expert speakers from Virtual Labs, IIT Delhi.
